Absorption
Evaluation of drug absorption by nonlinear regression, statistical moments, and Loo–Riegelman methods, 359

Absorption potential
Absorption potential: Estimating the fraction absorbed for orally administered compounds, 588

Absorption promoters
Enhanced rectal absorption of sodium ampicillin by *N*-acyl derivatives of collagen peptide in rabbits and rats, 1058

Acetaminophen
Impact of dilution on the pharmacokinetic behavior of acetaminophen in rabbits after oral administration, 325
Determination of phenylpropanolamine hydrochloride and acetaminophen in pharmaceutical preparations by Raman spectroscopy, 443

Acetylcholine antagonist
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711
Leaching of zinc compound from rubber stoppers into the contents of automatic atropine injectors, 788

Acetylmethadol
Effect of phenobarbital pretreatment on the plasma and urinary levels of (−)-α-acetylmethadol and its metabolites, 331

Acetyloxytrimethyloxoprostadienoic acid
Influence of antacids on the gastric antisecretory activity of the synthetic prostanoid [b.0](8*R*,11*R*,12*S*, 15*R*,5*Z*,13*E*)[vb.22]1 5-(acetyloxy)-11,16,16-trimethyl-9-oxoprosta-5,13-dien-1-oic acid in dogs, 1334

Acrylic acid
Bioadhesive polymers as platforms for oral controlled drug delivery II: Synthesis and evaluation of some swelling, water-insoluble bioadhesive polymers, 399

Acyclovir
Effect of fatty acids and alcohols on the penetration of acyclovir across human skin in vitro, 688
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082

Acyltyrosine esters
Mechanism of nasal absorption of drugs II: Absorption of L-tyrosine and the effect of structural modification on its absorption, 1298

Adhesion
Effects of adhesion on mixing homogeneity II: Highest attainable degree of mixing of a polydisperse ingredient and a monodisperse diluent, 999

Adrenergic antagonists
N-Dealkylation of oxprenolol: Formation of 3-aryloxypropane-1,2-diol, 3-aryloxylactic acid, and 2-aryloxyacetic acid metabolites in the rat, 33

Adrenoceptors
Adrenoceptors and catecholamine action, part *B* (Kunos, book reviews), 499

Adrenoceptor antagonists
cis- and *trans*-4-*n*-p ropyl-1,2,3,4,4a,5,6,10b-octahydrobenzo(*f*)quinolines, 672

Adriamycin
Rapid analysis of doxorubicin in plasma by radial compression liquid chromatography, 1225

Aerosols
Drug absorption from inhalation aerosols administered by positive-pressure ventilation I: Administration of a characterized, solid disodium fluorescein aerosol under a controlled respiratory regime to the beagle dog, 934
Drug absorption from inhalation aerosols administered by positive-pressure ventilation II: Effect of disodium fluorescein aerosol particle size on fluorescein absorption kinetics in the beagle dog respiratory tract, 939
Analysis of the variance components in a pharmaceutical aerosol product: Lodoxamide tromethamine, 978

Agglomerated crystals
Preparations of agglomerated crystals of polymorphic mixtures and a new complex of indomethacin–epirizole by the spherical crystallization technique, 1152

Albumin
Preparation of serum albumin microcapsules, 342
Binding of dapsone and its analogues to human serum albumin, 690
Comparison of equilibrium dialysis, ultrafiltration, and gel permeation chromatography for the determination of free fractions of phenobarbital and phenytoin, 692
Determination of gallium concentration in "blood-free" tissues using a radiolabeled blood marker, 1007

Albuterol
Comparative bioavailability and pharmacokinetics of three formulations of albuterol, 217

Alkaloids
The alkaloids: Chemistry and pharmacology, vol. XXIII (Brossi, book reviews), 799
Alkaloids: Chemical and biological perspectives, vol. 2 (Pelletier, book reviews), 908

Alkynols
Antifungal properties of 3-*n*-Alkyn-1-ols and synergism with 2-*n*-alkyn-1-ols and ketoconazole, 556

Allergy
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Allometric model
Interspecies correlation of the pharmacokinetics of erythrocmycin, oleandomycin, and tylosin, 943
Pharmacokinetic scale-up: Accurate prediction of human pharmacokinetic profiles from animal data, 1097

Allylpyrrolidinylmethylsulfamoylveratramide
Primary dose-dependent pharmacokinetic study of veralipride, 94

Alpha$_1$-acid glycoprotein
Effect of the sialylation state of α_1-acid glycoprotein on propranolol binding, 473
Diurnal variation of α_1-acid glycoprotein concentration in normal volunteers, 777

Alpha-adrenergic agent
Fluorometric determination of phenylephrine hydrochloride by liquid chromatography in human plasma, 562

Aluminum hydroxide
Point of zero charge of amorphous aluminum hydroxide as a function of adsorbed carbonate, 478
Adsorption of hypochlorite by aluminum hydroxide, 1019
Action of hydrochloric acid on aluminum hydroxide–magnesium hydroxide gels and magaldrate: ^{27}Al NMR and pH-stat studies, 1075

Aluminum hydroxides
Commercial aluminum hydroxides (open forum), 903

Amines
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172

Amine carboxyboranes
Antineoplastic activity of a series of boron analogues of α-amino acids, 755

Amine cyanoboranes
Antineoplastic activity of a series of boron analogues of α-amino acids, 755

Amino acids
Detection and quantitation of low levels of protected and unprotected (*R*)-amino acids in the synthesis of thymopentin, an immunoregulatory peptide, 489

Aminobenzoic acid esters
A model for *p*-aminobenzoic acid ester narcosis in goldfish, 1236

Aminocephalosporanic acid
Cephalothin: Hydrolysis of the C-3′-acetoxy moiety of a 7-aminocephalosporanic acid; observation of both acyl-oxygen bond cleavage and reversible alkyl-oxygen bond cleavage, 1162

Aminodimethylacetanilide
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Aminopeptidase activity
Aminopeptidase activity in albino rabbit extraocular tissues relative to the small intestine, 731

Aminophylline
Estimation of theophylline clearance during intravenous aminophylline infusions, 508

Aminopyridinylbenzenesulfonamide
Conformational polymorphism VI: The crystal and molecular structures of form II, form III, and form V of 4-Amino-*N*-2-pyridinylbenzenesulfonamide (sulfapyridine), 255

Aminosalicylic acid
Mechanism of decarboxylation of *p*-aminosalicylic acid, 1274

Aminotetralins
Syntheses and hypotensive properties of substituted 2-aminotetralins, 37

Aminothiazolylcarboxymethoxyiminoacetamidooxovinylthiaazabicyclooctene-carboxylic acid
Relationship between protein binding and renal clearance of a new oral cephalosporin in the dog, 1242

Amiodarone
Rapid liquid chromatographic assay for the determination of amiodarone and its *N*-deethyl metabolite in plasma, urine, and bile, 460

Amiodarone partitioning with phospholipid bilayers and erythrocyte membranes, 783
Tissue–serum correlates of digoxin–amiodarone pharmacokinetic interaction in rats: Evidence for selective tissue accumulation and reduced tissue binding, 1067

Amphetamine derivatives
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Ampicillin
Enhanced rectal absorption of sodium ampicillin by *N*-acyl derivatives of collagen peptide in rabbits and rats, 1058

Analgesic activity
Quantitative liquid chromatographic determination of bromadoline and its *N*-demethylated metabolites in blood, plasma, serum, and urine samples, 304
Effect of phenobarbital pretreatment on the plasma and urinary levels of (−)-α-acetylmethadol and its metabolites, 331
Synthesis and anti-inflammatory and analgesic activities of 3-methyl-*N*-phenyl-1*H*-pyrazol-5-ylcarboxamides, 1013

Analgesic potency
Analgesic potencies of morphine 3- and 6-sulfates after intracerebroventricular administration in mice: Relationship to structural characteristics defined by mass spectrometry and nuclear magnetic resonance, 821

Analgesic properties
Efforts toward combined analgesic/antidepressants: Synthesis and evaluation of (3-aryl-2,3-dihydrobenzofuran-3-yl)alkanamines, 44

Analgetic activity
Pharmacokinetics of morphine and its surrogates VI: Bioanalysis, solvolysis kinetics, solubility, pK'_a values, and protein binding of buprenorphine, 515

Analgetic agent
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

Analytical profiles
Analytical profiles of drug substances, vol. 13 (Florey, book reviews), 907

Androgenic steroid
Liquid chromatographic assay for fluoxymesterone in human serum with application to a preliminary bioavailability study, 308

Angiotensin-converting enzyme inhibition
Synthesis of N^2-[(*S*)-1-carboxy-3-phenylpropyl]-L-lysyl-L-proline (lisinopril), 352

Angiotensin-converting enzyme inhibitor
Disposition of pentopril, a new orally active angiotensin-converting enzyme inhibitor, and its active metabolite in rats, 947

Angle of repose
Studies of powder flow using a recording powder flowmeter and measurement of the dynamic angle of repose, 11

Anilidopiperidine derivatives
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

Anthroquinone dye
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Antiallergic drugs
Chemistry and pharmacology of drugs, vol. 4: Pulmonary and antiallergic drugs (Devlin, book reviews), 1248

Antianginal drug
Amiodarone partitioning with phospholipid bilayers and erythrocyte membranes, 783

Antiarrhythmic agents
Rapid liquid chromatographic assay for the determination of amiodarone and its *N*-deethyl metabolite in plasma, urine, and bile, 460
Protein binding of propisomide, 530
Pharmacologically active conformation of disopyramide: Evidence from apparent pK_a measurements, 750
Amiodarone partitioning with phospholipid bilayers and erythrocyte membranes, 783

Antibacterial activity
Liquid chromatographic determination of noxytiolin and 1-methyl-2-thiourea in serum: Application to pharmacokinetic studies in rabbits and humans, 224

Antibiotics
The chemistry and biology of antibiotics (Betina, book reviews), 594
Chromatography of antibiotics, 2nd ed (Wagman and Weinstein, book reviews), 803

Anticancer agents
Anticancer and interferon agents: Synthesis and properties (Ottenbrite and Butler, book reviews), 797
Computer-assisted structure–anticancer activity correlations of carbamates and thiocarbamates, 831

Anticariogenic activity
Anticariogenic activity of licorice and glycyrrhizine I: Inhibition of in vitro plaque formation by *Streptococcus mutans*, 79

Anticholinergic activity
Pharmacologically active conformation of disopyramide: Evidence from apparent pK_a measurements, 750

Anticholinergic agent
Synthesis and bronchodilator activity of *endo*-2-(2-cyclopentyl-2-hydroxy-2-phenyl) acetoxy-7-methyl-7-azabicyclo[2.2.1]heptane methobromide, a potent and long-acting anticholinergic agent, 208
Analysis of 3-(2-(ethylamino)propyl)-1,2,3,4- tetrahydro-5*H*(1)benzo-pyrano(3,4-c)pyridin-5-one in plasma by liquid chromatographic column switching after derivatizing the secondary amine with fluorescein-6-isothiocyanate, 1091

Anticoagulant drug
Metabolic fate of phenprocoumon in humans, 1037

Anticonvulsant activity
Spirosuccinimides as potential anticonvulsants, 785

Anticonvulsant agent
Bioequivalence of carbamazepine chewable and conventional tablets: Single-dose and steady-state studies, 866

Antidepressant agents
Efforts toward combined analgesic/antidepressants: Synthesis and evaluation of (3-aryl-2,3-dihydrobenzofuran-3-yl)alkanamines, 44
Determination of indeloxazine in plasma by liquid chromatography and gas chromatography–mass spectrometry, 559
Binedaline binding to plasma proteins and red blood cells in humans, 727

Antidopaminergic activity
Primary dose-dependent pharmacokinetic study of veralipride, 94

Antiepileptic drugs
Metabolism of antiepileptic drugs (Levy, Pitlick, Eichelbaum, and Meijer, book reviews), 110

Antiestrogenic activity
Liquid chromatographic procedure for the quantitative analysis of megestrol acetate in human plasma, 664

Antifungal activity
Liquid chromatographic determination of noxytiolin and 1-methyl-2-thiourea in serum: Application to pharmacokinetic studies in rabbits and humans, 224
Antifungal properties of 3-*n*-Alkyn-1-ols and synergism with 2-*n*-alkyn-1-ols and ketoconazole, 556

Antigonadotropic activity
Primary dose-dependent pharmacokinetic study of veralipride, 94

Antihypertensive activity
Syntheses and hypotensive properties of substituted 2-aminotetralins, 37
Capillary gas chromatographic–mass spectrometric analysis of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 76
Synthesis of N^2-[(*S*)-1-carboxy-3-phenylpropyl]-L-lysyl-L-proline (lisinopril), 352
Disposition of pentopril, a new orally active angiotensin-converting enzyme inhibitor, and its active metabolite in rats, 947
Pharmacodynamics and pharmacokinetics of the methyl ester of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 1245

Anti-inflammatory activity
Conformational analysis of some α-phenylpropionic acids with anti-inflammatory activity, 47
Synthesis of a new anti-inflammatory steroidal acid ester: Methyl 11β-hydroxy-3,20-dioxo-1,4-pregnadien-21-oate, 180

Anti-inflammatory agents
Inhibition of 5β-dihydrocortisone reduction in rat liver cytosol: A rapid spectrophotometric screen for nonsteroidal anti-inflammatory drug potency, 651
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Antimalarials
Paired-ion liquid chromatographic method for the analysis of a phenanthrenemethanol antimalarial in whole blood, 433

Antimetabolic activity
Antiviral activity, antimetabolic activity, and cytotoxicity of 3′-substituted deoxypyrimidine nucleosides, 246

Antimicrobial agent
Binding of dapsone and its analogues to human serum albumin, 690
Lack of influence of co-trimoxazole on theophylline pharmacokinetics, 1103

Anti-motion-sickness drug
Comparison of meclizine levels in the plasma of rats and dogs after intranasal, intravenous, and oral administration, 1111

Antimycotic
Antifungal properties of 3-*n*-Alkyn-1-ols and synergism with 2-*n*-alkyn-1-ols and ketoconazole, 556

Antineoplastic activity
Stability-indicating liquid chromatographic determination of etoposide

and benzyl alcohol in injectable formulations, 197

Antineoplastic chemotherapy
Antineoplastic chemotherapy (Kuemmerle, book reviews), 593

Antiparasitic agent
Pharmacokinetics of ivermectin administered intravenously to cattle, 1105
Oral controlled-release delivery of ivermectin in cattle via an osmotic pump, 1108

Antiprotease activity
Assessment of antiprotease activity of some carbamate derivatives, 482

Antipsychotic agents
Radioimmunoassay for the 7-hydroxy metabolite of trifluoperazine and its application to a kinetic study in human volunteers, 1196

Antipyrine
Influence of short-term water deprivation on antipyrine disposition, 338

Antisecretory activity
Influence of antacids on the gastric antisecretory activity of the synthetic prostanoid(8*R*,11*R*,12*S*,15*R*,5*Z*,13*E*)15-(acetyloxy)-11,16,16-trimethyl-9-oxoprosta-5,13-dien-1-oic acid in dogs, 1334

Antitumor agents
Antitumor agents 68: Effects of a series of helenalin derivatives on P-388 lymphocytic leukemia nucleic acid and protein synthesis, 250
Isolation, structural elucidation, and chemical synthesis of 2-hydroxy-3-octadecyl-5-methoxy-1,4-benzoquinone (irisoquin), a cytotoxic constituent of *Iris missouriensis*, 1114
Mechanism for the reductive activation of diaziquone, 1249

Antitumor prescreen
Structure-activity relationships among substituted N-benzoyl derivatives of phenylalanine and its analogues in a microbial antitumor prescreen III: Derivatives of *p*-Fluoro-DL-phenylalanine, 40

Antiviral activity
Antiviral activity, antimetabolic activity, and cytotoxicity of 3′-substituted deoxypyrimidine nucleosides, 246
Electrochemistry of purine derivatives 1: Direct determination for the antiviral drug 9-[(1,3-dihydroxy-2-propoxy)methyl]guanine by anodic differential pulse voltammetry, 1078
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082
Purine acyclic nucleosides. 6-Dimethylamino-9-[(2-phenylalanylamido-1-substituted-ethoxy) methyl]purines as candidate antivirals, 1302

Antiviral agent
Liquid chromatographic analysis of enviradene, a new antiviral agent, in plasma and its application in bioavailability studies in the dog, 846

Anxiolytic drug
Characterization of polymorphism of gepirone hydrochloride, 1041

Arabinofuranosyladenine
Hydrolysis and solvent-dependent 2′→5′ and 3′→5′ acyl migration in prodrugs of 9-β-D-arabinofuranosyladenine, 825

Arabinofuranosyladenine derivatives
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Arithmetic mean elimination rate
Estimation of variance for harmonic mean half-lives, 229

Aryldihydrobenzofuranylalkanamines
Efforts toward combined analgesic/antidepressants: Synthesis and evaluation of (3-aryl-2,3-dihydrobenzofuran-3-yl)alkanamines, 44

Aryloxypropanolamine
N-Dealkylation of oxprenolol: Formation of 3-aryloxypropane-1,2-diol, 3-aryloxylactic acid, and 2-aryloxyacetic acid metabolites in the rat, 33

Aspirin
Preparation and analysis of deuterium-labeled aspirin: Application to pharmacokinetic studies, 188
Decomposition of aspirin in the solid state in the presence of limited amounts of moisture, 741
Aspirin and the salicylates (Rainsford, book reviews), 1138

Asthma
Beta adrenoceptors in asthma (Morley, book reviews), 1026

Asymmetric synthesis
Asymmetric synthesis, vol. 4: The chiral carbon pool and chiral sulfur, nitrogen, phosphorous, and silicon centers (Morrison and Scott, book reviews), 1028
Asymmetric synthesis, vol. 3. Stereodifferentiating addition reactions (Morrison, book reviews), 1138

ATP
Influence of chlorpromazine on the accumulation of 5-hydroxytryptamine by interaction with ATP, 1188

Atropine
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711
Leaching of zinc compound from rubber stoppers into the contents of automatic atropine injectors, 788

AUC values
Interpretation of area under the curve measurements for drugs subject to enterohepatic cycling, 227

Azabicycloheptanol derivative
Synthesis and bronchodilator activity of *endo*-2-(2-cyclopentyl-2-hydroxy-2-phenyl) acetoxy-7-methyl-7-azabicyclo[2.2.1]heptane methobromide, a potent and long-acting anticholinergic agent, 208

Azone
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Bacterial contamination
Sterility test systems for product recovery, 29

^{139}Ba-labeled tablets
Radiolabeling of intact tablets by neutron activation for in vivo scintigraphic studies, 590

Balanced incomplete-block design
Balanced incomplete-block design: Its use and misuse (open forum), 795

Barbituric acid derivatives
Quantitative structure–stability relationships among inclusion complexes of cyclodextrins I: Barbituric acid derivatives, 211

BASIC interactive computer program
INTRAV and ORAL: BASIC interactive computer programs for estimating pharmacokinetic parameters, 113

Belladonna alkaloid
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711

Bendroflumethiazide
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438

Benoxaprofen
Analysis of solid-state carbon-13 NMR spectra of polymorphs (benoxaprofen and nabilone) and pseudopolymorphs (cefazolin), 565

Benzaldehyde
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197

Benzamides
Performulation studies in a drug development program for tablet formulations, 16

Benzodiazepines
Pharmacology of benzodiazepines (Usdin, Skolnick, Tallman, Greenblatt, and Paul, book reviews), 500

Benzodiazepine receptor affinity
β-Carbolines as benzodiazepine receptor ligands II: Synthesis and benzodiazepine receptor affinity of β-carboline-3-carboxylic acid amides, 676

Benzofuran derivative
Rapid liquid chromatographic assay for the determination of amiodarone and its *N*-deethyl metabolite in plasma, urine, and bile, 460

Benzoic acid
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical acids and their sodium salts II: Salicylic acid, theophylline, and benzoic acid, 148
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608
Dissolution of carboxylic acids III: The effect of polyionizable buffers, 1305

Benzomorphan derivative
Cyclazocine and norepinephrine uptake, metabolism, and turnover in the rat brain, 97

Benzonitrile *N*-oxides
Octanol–water partition coefficients of substituted α,*N*-diphenylnitrones and benzonitrile *N*-oxides, 1129

Benzothiadiazines
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438

Benzoyl derivatives of phenylalanine
Structure-activity relationships among substituted N-benzoyl derivatives of phenylalanine and its analogues in a microbial antitumor prescreen III: Derivatives of *p*-Fluoro-DL-phenylalanine, 40

Benzoylmethylthiopheneacetic acid
Pharmacokinetics of taiprofenic acid in healthy and arthritic subjects, 953

Benzyl alcohol
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197
Simultaneous liquid chromatographic determination of glutaric acid, phenylephrine, and benzyl alcohol in a prototype nasal spray with

application to di- and tricarboxylic acids, 312
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892

Benzylhydrazine
Determination of hydrazine in pharmaceuticals IV: Hydrazine and benzylhydrazine in isocarboxazid, 105

Beta adrenergic agent
Synthesis and irreversible β-adrenergic blockade with a bromoacetamido derivative of betaxolol, 1117

Beta-Adrenergic bronchodilator
Comparative bioavailability and pharmacokinetics of three formulations of albuterol, 217

Beta adrenoceptors
Beta adrenoceptors in asthma (Morley, book reviews), 1026

Beta-cyclodextrin complex
Enhancement of bioavailability of cinnarizine from its β-cyclodextrin complex on oral administration with DL-phenylalanine as a competing agent, 496
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Beta lactam antibiotics
Enhanced rectal absorption of sodium ampicillin by *N*-acyl derivatives of collagen peptide in rabbits and rats, 1058

Betaxolol derivative
Synthesis and irreversible β-adrenergic blockade with a bromoacetamido derivative of betaxolol, 1117

Bile salt micelles
Examination of the sephadex G_{10} beads uptake method for determination of bile salt monomer concentration in taurocholate–lecithin solutions, 880

Binedaline
Binedaline binding to plasma proteins and red blood cells in humans, 727

Bioadhesive polymers
Bioadhesive polymers as platforms for oral controlled drug delivery II: Synthesis and evaluation of some swelling, water-insoluble bioadhesive polymers, 399
Bioadhesive polymers as platforms for oral controlled drug delivery III: Oral delivery of chlorothiazide using a bioadhesive polymer, 406

Bioavailability
Absorption potential: Estimating the fraction absorbed for orally administered compounds, 588

Biochemistry
Biochemistry for the medical sciences (Newsholme and Leech, book reviews), 908

Biodegradable microcapsules
Preparation of serum albumin microcapsules, 342

Biomimetic chemistry
Biomimetic chemistry—Proceedings of the 2nd international Kyoto conference on new aspects of organic chemistry (Yoshida and Ise, book reviews), 800

Biopharmaceutics
Biopharmaceutics and clinical pharmacokinetics 3rd ed. (Gibaldi, book reviews), 234
Applied biopharmaceutics and pharmacokinetics, 2nd ed. (Shargel and Yu, book reviews), 1140

Biosynthesis
Biosynthesis, vol. 7 (Herbert and Simpson, book reviews), 702

Biotechnologies
Biotechnologies: Challenges and promises (Sasson, book reviews), 1345

Blue tetrazolium assay procedure
Simplex optimization of the blue tetrazolium assay procedure for α-ketol steroids, 655

Bonding index
Dispersion forces and plastic deformation in tablet bond, 768

Boric acid
Automated flow-injection pseudotitration of boric acid, 986

Boron analogues of α-amino acids
Antineoplastic activity of a series of boron analogues of α-amino acids, 755

Bovine serum albumin
Preparation of serum albumin microcapsules, 342

Brain-specific chemical delivery systems
Improved delivery through biological membranes XIX: Novel redox carriers for brain-specific chemical delivery systems, 241

Brain-specific delivery
Direct evidence for brain-specific release of dopamine from a redox delivery system, 1033

Breast milk
Liquid chromatographic determination of propoxyphene and norpropoxyphene in plasma and breast milk, 103

Bromadoline
Quantitative liquid chromatographic determination of bromadoline and its *N*-demethylated metabolites in blood, plasma, serum, and urine samples, 304

Bromochlorophenylmethylthienotriazolodiazepine
Brotizolam radioimmunoassay: Development, evaluation, and application to human plasma samples, 1265

Bromodimethylaminocyclohexylbenzamide
Quantitative liquid chromatographic determination of bromadoline and its *N*-demethylated metabolites in blood, plasma, serum, and urine samples, 304

Bromoepoxydulcitol
Assay for mitolactol and its bifunctional alkylating metabolites in plasma, 983

Bromonitropropanediol
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892

Bronchodilator
Comparative bioavailability and pharmacokinetics of three formulations of albuterol, 217
Bioavailability of dyphylline and dyphylline–guaifenesin tablets in humans, 335
Bronchorelaxing activity of lithium in vitro, 1120

Bronchodilator activity
Synthesis and bronchodilator activity of *endo*-2-(2-cyclopentyl-2-hydroxy-2-phenyl) acetoxy-7-methyl-7-azabicyclo[2.2.1]heptane methobromide, a potent and long-acting anticholinergic agent, 208

Brotizolam
Brotizolam radioimmunoassay: Development, evaluation, and application to human plasma samples, 1265

Buprenorphine
Pharmacokinetics of morphine and its surrogates VI: Bioanalysis, solvolysis kinetics, solubility, pK'_a values, and protein binding of buprenorphine, 515

Buthiazide
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438

Butylbenzofuranyldiethylaminoethoxydiiodophenyl ketone
Amiodarone partitioning with phospholipid bilayers and erythrocyte membranes, 783
Tissue–serum correlates of digoxin–amiodarone pharmacokinetic interaction in rats: Evidence for selective tissue accumulation and reduced tissue binding, 1067

Butyl nitrite
Uptake of inhaled *n*-butyl nitrite and in vivo transformation in rats, 780

Caffeine
Infrared study of the interaction between caffeine and hydroxylic derivatives, 660

Calcitonin
High molecular weight derivative of salmon calcitonin with prolonged hypocalcemic activity, 345

Cancer chemotherapy
Biosynthetic products for cancer chemotherapy, vol. 4 (Petit, Cragg and Herald, book reviews), 803

Capillary chromatography
Glass capillary chromatography in clinical medicine and pharmacology (Jaeger, book reviews), 1025

Carbamates
Computer-assisted structure–anticancer activity correlations of carbamates and thiocarbamates, 831

Carbamate derivatives
Assessment of antiprotease activity of some carbamate derivatives, 482

Carbamazepine
Bioequivalence of carbamazepine chewable and conventional tablets: Single-dose and steady-state studies, 866

Carbamyloxyphosphatidylcholine
Phase behavior of carbamyloxyphosphatidylcholine, a sphingolipid analogue, 1255

Carbenicillin
Epimerization kinetics of moxalactam, its derivatives, and carbenicillin in aqueous solution, 68

Carbolines
β-Carbolines as benzodiazepine receptor ligands II: Synthesis and benzodiazepine receptor affinity of β-carboline-3-carboxylic acid amides, 676

Carbolinecarboxylic acid amides
β-Carbolines as benzodiazepine receptor ligands II: Synthesis and benzodiazepine receptor affinity of β-carboline-3-carboxylic acid amides, 676

Carbonate-containing aluminum hydroxide
Point of zero charge of amorphous aluminum hydroxide as a function of adsorbed carbonate, 478

Carbonic anhydrase inhibitors
Topical carbonic anhydrase inhibitors III: Optimization model for corneal penetration of ethoxzolamide analogues, 155
Topical carbonic anhydrase inhibitors IV: Relationship between excised corneal permeability and pharmacokinetic factors, 525

Carboprost methyl
Drug release testing of a prostaglandin containing controlled-release vaginal device: Development of a semiautomated method, 1086

Carboxanilidopyrazoles
Synthesis and anti-inflammatory and analgesic activities of 3-methyl-*N*-phenyl-1*H*-pyrazol-5-ylcarboxamides, 1013

Carboxylic acids
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172
Dissolution of carboxylic acids III: The effect of polyionizable buffers, 1305
Shifts in the apparent ionization constant of the carboxylic acid groups of gelatin, 1317

Carboxymethyl dipeptides
Synthesis of N^2-[(*S*)-1-carboxy-3-phenylpropyl]-L-lysyl-L-proline (lisinopril), 352

Carboxyphenylpropyllysylproline
Synthesis of N^2-[(*S*)-1-carboxy-3-phenylpropyl]-L-lysyl-L-proline (lisinopril), 352

Cardiovascular drugs
New drugs annual: Cardiovascular drugs, vol. 2 (Scriabine, book reviews), 806

Cardiovascular therapy
Calcium channel antagonists in cardiovascular disease (Packer and Frishman, book reviews), 110

Cefazolin
Analysis of solid-state carbon-13 NMR spectra of polymorphs (benoxaprofen and nabilone) and pseudopolymorphs (cefazolin), 565

Cefotaxime
Overlapping ionization constants for cefotaxime, 85

Ceftizoxime
Pharmacokinetic scale-up: Accurate prediction of human pharmacokinetic profiles from animal data, 1097

Central nervous system stimulant
Kinetics of drug action in disease states XV: Effect of pregnancy of the convulsive activity of pentylenetetrazol in rats, 1233

Cephalosporin
Relationship between protein binding and renal clearance of a new oral cephalosporin in the dog, 1242

Cephalosporin antibiotic
Pharmacokinetic scale-up: Accurate prediction of human pharmacokinetic profiles from animal data, 1097

Cephalosporin derivatives
Cephalothin: Hydrolysis of the C-3′-acetoxy moiety of a 7-aminocephalosporanic acid; observation of both acyl-oxygen bond cleavage and reversible alkyl-oxygen bond cleavage, 1162

Cephalothin
Cephalothin: Hydrolysis of the C-3′-acetoxy moiety of a 7-aminocephalosporanic acid; observation of both acyl-oxygen bond cleavage and reversible alkyl-oxygen bond cleavage, 1162

Cerebral activator
Determination of indeloxazine in plasma by liquid chromatography and gas chromatography–mass spectrometry, 559

Charcoal adsorption
Effect of pH on charcoal adsorption of lidocaine, methadone, pilocarpine, and procaine, 476

Charge transfer
Charge transfer in the mechanism of drug action involving quinoxaline di-*N*-oxides, 492

Chemotherapy
Advances in pharmacology and chemotherapy, volume 20 (Garattini, Golden, and Hawking, book reviews), 363

Chenodeoxycholate
Cholesterol monohydrate dissolution rate studies in aqueous micellar sodium chenodeoxycholate solutions, 1178

Chiral HPLC
Detection and quantitation of low levels of protected and unprotected (*R*)-amino acids in the synthesis of thymopentin, an immunoregulatory peptide, 489

Chiral-phase capillary gas chromatography
Detection and quantitation of low levels of protected and unprotected (*R*)-amino acids in the synthesis of thymopentin, an immunoregulatory peptide, 489
Chiral-phase capillary gas chromatography and mosquito repellent activity of some oxazolidine derivatives of (+)- and (−)-citronellal, 534

Chiral polyacrylamides
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438

Chlorocyanophenylenedioxamic acid
Analysis of the variance components in a pharmaceutical aerosol product: Lodoxamide tromethamine, 978

Chloroethylpyrrolidinylmethylmethoxysulfanilamide
Quantitative thin-layer and high-performance liquid chromatographic determination of lorapride in biological fluids and a pharmacokinetic study in humans, 1215

Chlorohydroxyoxoisoindolinylbenzenesalfonamide
Chlorthalidone pharmacodynamics in beagle dogs, 851

Chlorohydroxyoxoisoindolinylbenzenesulfonamide
Degradation of chlorthalidone in methanol: Kinetics and stabilization, 857
Relative bioavailability of chlorthalidone in humans after single oral doses, 995

Chlorophenylphenylmethylmethylphenylmethylpiperazine
Comparison of meclizine levels in the plasma of rats and dogs after intranasal, intravenous, and oral administration, 1111

Chlorothiazide
Bioadhesive polymers as platforms for oral controlled drug delivery III: Oral delivery of chlorothiazide using a bioadhesive polymer, 406

Chlorpromazine
Microencapsulation and dissolution properties of a neuroleptic in a biodegradable polymer, poly(d,l-lactide), 21
Influence of chlorpromazine on the accumulation of 5-hydroxytryptamine by interaction with ATP, 1188

Chlorthalidone
Chlorthalidone pharmacodynamics in beagle dogs, 851
Degradation of chlorthalidone in methanol: Kinetics and stabilization, 857
Relative bioavailability of chlorthalidone in humans after single oral doses, 995

Cholestasis
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321

Cholesterol
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618
Evaluation of lincomycin as a cholesterol gallstone dissolution rate accelerator, 621
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172
Cholesterol monohydrate dissolution rate studies in aqueous micellar sodium chenodeoxycholate solutions, 1178

Chromatography
Advances in chromatography, vol. 23 (Giddings, Gruska, Cazes, and Brown, book reviews), 498
Advances in chromatography, vol. 24 (Giddings, Grushka, Cazes, and Brown, book reviews), 1023
Contemporary practice of chromatography (Poole and Shuette, book reviews), 1137
Chemical methods in gas chromatography (Berezkin, book reviews), 1137
Chromatography of alkaloids, part B: Gas–liquid chromatography and high-performance liquid chromatography (Verpoorte and Svendsen, book reviews), 1139
Drug analysis by gas chromatography (Jack, book reviews), 1141

Chronicles of drug discovery
Chronicles of drug discovery, vol. 2 (Bindra and Lednicer, book reviews), 1029

Cimetidine
Interpretation of area under the curve measurements for drugs subject to enterohepatic cycling, 227

Cinnamyl anthranilate
Methods for in vitro percutaneous absorption studies IV: The flow-through diffusion cell, 64

Cinnarizine
Enhancement of bioavailability of cinnarizine from its β-cyclodextrin complex on oral administration with DL-phenylalanine as a competing agent, 496

Citronellal
Chiral-phase capillary gas chromatography and mosquito repellent activity of some oxazolidine derivatives of (+)- and (−)-citronellal, 534

Clearance
General method for evaluating the fraction of the irreversible organ clearance due to conversion of drug to a primary metabolite, 722

Clinical pharmacology
Handbook of clinical pharmacology, 2nd ed (Bochner, Carruthers, Kampmann, and Steiner, book reviews), 361
Perspectives in clinical pharmacology (Gibaldi, book reviews), 1029

Clinical studies
Guide to clinical studies and developing protocols (Spilker, book reviews), 1026

^{35}Cl NMR probe technique
Chloride ion nuclear magnetic resonance spectroscopy probe studies of copper and nickel binding to serum albumins, 61

Clofibrate
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295

Clofibric acid derivatives
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295

Clonidine
Pharmacokinetic interpretation of the plasma levels of clonidine following transdermal delivery, 1016

Coacervation
Preparation of serum albumin microcapsules, 342

Coating method
Novel method for the preparation of controlled-release theophylline granules coated with a polyelectrolyte complex of sodium polyphosphate–chitosan, 264

Coating solutions
Tack behavior of coating solutions III, 746

Collagen gel
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922

Compartmental models
Segmentally continuous input functions in linear multicompartment systems, 136
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625
Compartmental models and their application (Godfrey, book reviews), 806

Compressibility
Compressibility of anhydrous tricalcium phosphate, 466

Compression
Triaxial compression of "cappable" formulations, 1239
Interactions in the solid state I: Interactions of sodium bicarbonate and tartaric acid under compressed conditions, 1293

Compressional pressure
Effect of lubricant level and applied compressional pressure on surface friction of tablets, 697

Compression forces
Observations on the dissolution behavior of a tablet formulation: Effect of compression forces, 575

Compression molding
Dissolution rate studies of compression-molded units made from hydroxypropyl cellulose films, 540

Computer programs
INTRAV and ORAL: BASIC interactive computer programs for estimating pharmacokinetic parameters, 113

Concentration ratio method
Developments in the concentration ratio method, 1021

Conformational analysis
Conformational analysis of some α-phenylpropionic acids with anti-inflammatory activity, 47
Pharmacologically active conformation of disopyramide: Evidence from apparent pK_a measurements, 750

Conformational isomerism
Kinetics and mechanisms of thioamide rotational isomerism: *N*-thionaphthoyl-*N*-methyl glycine derivative, 273

Conformational polymorphism
Conformational polymorphism VI: The crystal and molecular structures of form II, form III, and form V of 4-Amino-*N*-2-pyridinylbenzenesulfonamide (sulfapyridine), 255

Conformational studies
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

Contamination
Leaching of zinc compound from rubber stoppers into the contents of automatic atropine injectors, 788

Content-uniformity test
Some properties of the USP content-uniformity test as related to control charts and validation of solid dosage forms, 572

Continuous rheogram data
Characterization of the shear sensitivity property of petrolatum, 290

Controlled drug bioavailability
Controlled drug bioavailability, vol. 1: Drug product design and performance (Smolen and Ball, book reviews), 801
Controlled drug bioavailability, vol. 2: Bioavailability methodology and regulation (Smolen and Ball, book reviews), 801

Controlled-release drug delivery systems
Bioadhesive polymers as platforms for oral controlled drug delivery II: Synthesis and evaluation of some swelling, water-insoluble bioadhesive polymers, 399
Bioadhesive polymers as platforms for oral controlled drug delivery III: Oral delivery of chlorothiazide using a bioadhesive polymer, 406
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922
Oral controlled-release delivery of ivermectin in cattle via an osmotic pump, 1108

Convolutions
Segmentally continuous input functions in linear multicompartment systems, 136

Copper
Chloride ion nuclear magnetic resonance spectroscopy probe studies of copper and nickel binding to serum albumins, 61

Copper aspirinate
Comments on "the ulcerogenic potential of copper aspirinate seems to be more imaginary than real" (open forum), 700

Coralyne analogues
Enzyme inhibition VIII: Mode of inhibition of reverse transcriptase activity by analogues, isomers, and related alkaloids of coralyne, 889

Corneal penetration
Topical carbonic anhydrase inhibitors III: Optimization model for corneal penetration of ethoxzolamide analogues, 155

Corneal penetration rate
Topical carbonic anhydrase inhibitors IV: Relationship between excised corneal permeability and pharmacokinetic factors, 525

Corticosteroids
Synthesis of a new anti-inflammatory steroidal acid ester: Methyl 11β-hydroxy-3,20-dioxo-1,4-pregnadien-21-oate, 180
Strategies in the design of solution-stable, water-soluble prodrugs I: A physical–organic approach to pro-moiety selection for 21-esters of corticosteroids, 365
Strategies in the design of solution-stable, water-soluble prodrugs II: Properties of micellar prodrugs of methylprednisolone, 375
Strategies in the design of solution-stable, water-soluble prodrugs III: Influence of the pro-moiety on the bioconversion of 21-esters of corticosteroids, 382

Cortisone
Methods for in vitro percutaneous absorption studies V: Permeation through damaged skin, 1062

Co-trimoxazole
Lack of influence of co-trimoxazole on theophylline pharmacokinetics, 1103

Crospovidone
Characterization of drug loading in crospovidone by x-ray photoelectron spectroscopy, 963

Cross-linked polymers
Bioadhesive polymers as platforms for oral controlled drug delivery II: Synthesis and evaluation of some swelling, water-insoluble bioadhesive polymers, 399
Characterization of drug loading in crospovidone by x-ray photoelectron spectroscopy, 963

Curve fitting
Segmentally continuous input functions in linear multicompartment systems, 136

Cutaneous penetration
Effect of fatty acids and alcohols on the penetration of acyclovir across human skin in vitro, 688

Cyclazocine
Cyclazocine and norepinephrine uptake, metabolism, and turnover in the rat brain, 97

Cyclic voltammetry
Charge transfer in the mechanism of drug action involving quinoxaline di-*N*-oxides, 492
Mechanism for the reductive activation of diaziquone, 1249

Cyclodextrins
Quantitative structure–stability relationships among inclusion complexes of cyclodextrins I: Barbituric acid derivatives, 211
Enhancement of bioavailability of cinnarizine from its β-cyclodextrin complex on oral administration with DL-phenylalanine as a competing agent, 496
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841
Amorphous water-soluble derivatives of cyclodextrins: Nontoxic dissolution enhancing excipients, 987
Effect of cyclodextrins on sparingly soluble salts, 1123

Cyclopropylmethoxyethylphenoxybromoacetamidophenylmethylpropylamine-propranol
Synthesis and irreversible β-adrenergic blockade with a bromoacetamido derivative of betaxolol, 1117

Cyclosporine
Extraction ratio of cyclosporine in a liver transplant patient with organ rejection, 901

Cytochrome P-450
Influence of short-term water deprivation on antipyrine disposition, 338

Cytochrome P-450-dependent monooxygenase
Dose-independent pharmacokinetics of trimethadione and its metabolite in rats, 340

Cytotoxic activity
Isolation, structural elucidation, and chemical synthesis of 2-hydroxy-3-octadecyl-5-methoxy-1,4-benzoquinone (irisoquin), a cytotoxic constituent of *Iris missouriensis*, 1114

Cytotoxicity
Antiviral activity, antimetabolic activity, and cytotoxicity of 3′-substituted deoxypyrimidine nucleosides, 246

Dapsone
Binding of dapsone and its analogues to human serum albumin, 690

Decarboxylation
Mechanism of decarboxylation of *p*-aminosalicylic acid, 1274

Deconvolution method
Application of a numerical deconvolution technique in the assessment of bioavailability, 1135

Deconvolution procedures
Segmentally continuous input functions in linear multicompartment systems, 136

Deflocculation
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Deoxyguanosine analogue
Electrochemistry of purine derivatives 1: Direct determination for the antiviral drug 9-[(1,3-dihydroxy-2-propoxy)methyl]guanine by anodic differential pulse voltammetry, 1078
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082

Deoxyhydroxyvinylprostaglandin E_2
Capillary gas chromatographic–mass spectrometric analysis of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 76
Pharmacodynamics and pharmacokinetics of the methyl ester of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 1245

Deoxypyrimidine nucleosides
Antiviral activity, antimetabolic activity, and cytotoxicity of 3′-substituted deoxypyrimidine nucleosides, 246

Desialylation
Effect of the sialylation state of α_1-acid glycoprotein on propranolol binding, 473

Deuterium-labeled aspirin
Preparation and analysis of deuterium-labeled aspirin: Application to pharmacokinetic studies, 188

Developing protocols
Guide to clinical studies and developing protocols (Spilker, book reviews), 1026

Dexbrompheniramine
Steady-state bioavailability of dexbrompheniramine and pseudoephedrine from a repeat-action combination tablet, 25

Diacetylarabinofuranosyladenine
Hydrolysis and solvent-dependent 2′→5′ and 3′→5′ acyl migration in prodrugs of 9-β-D-arabinofuranosyladenine, 825

Dianhydrogalactitol
Assay for mitolactol and its bifunctional alkylating metabolites in plasma, 983

Diarrheal disease
Infectious diarrheal disease: Current concepts and laboratory procedures (Ellner, book reviews), 594

Diazepam
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625
Altered drug–serum protein binding in the genetically obese zucker rat, 837
Drug distribution within human milk phases, 1071

Diaziquone
Mechanism for the reductive activation of diaziquone, 1249

Dibromodideoxygalactitol
Assay for mitolactol and its bifunctional alkylating metabolites in plasma, 983

Diethylaminodimethylacetanilide
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Diethylmethylpiperidinedione
Pharmacokinetics of methyprylon following a single oral dose, 1001

Differential scanning calorimetry
Crystallization of excipients in tablets, 128
Application of differential scanning calorimetry to the study of solid drug dispersions, 283
Characterization of polymorphism of gepirone hydrochloride, 1041
Phase behavior of carbamyloxyphosphatidylcholine, a sphingolipid analogue, 1255

Diffusion
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical bases and their hydrochloride salts I: Phenazopyridine, 142
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical acids and their sodium salts II: Salicylic acid, theophylline, and benzoic acid, 148
Chemical reaction, diffusion, and ionization model for dissolution of oxygen acids and carbon acids, 175
Multiple-hole approach to zero-order release, 926
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157
Influence of chlorpromazine on the accumulation of 5-hydroxytryptamine by interaction with ATP, 1188

Diffusion-controlled matrix devices
Multiple-hole approach to zero-order release, 926

Diffusion model
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625

Digoxin
Tissue–serum correlates of digoxin–amiodarone pharmacokinetic interaction in rats: Evidence for selective tissue accumulation and reduced tissue binding, 1067

Dihydralazine
Liquid chromatographic determination of dihydralazine and hydralazine in human plasma and its application to pharmacokinetic studies of dihydralazine, 1270

Dihydrocortisone
Inhibition of 5β-dihydrocortisone reduction in rat liver cytosol: A rapid spectrophotometric screen for nonsteroidal anti-inflammatory drug potency, 651

Dihydropyridine-pyridinium salt-type redox carrier systems
Improved delivery through biological membranes XIX: Novel redox carriers for brain-specific chemical delivery systems, 241

Dihydroxypropoxymethylguanine
Electrochemistry of purine derivatives 1: Direct determination for the antiviral drug 9-[(1,3-dihydroxy-2-propoxy)methyl]guanine by anodic differential pulse voltammetry, 1078
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082

Dimethylaminodiphenylheptanone
Pharmacokinetics of morphine and its surrogates VII: High-performance liquid chromatographic analyses and pharmacokinetics of methadone and its derived metabolites in dogs, 1203

Dimethylaminodiphenylmethylpropionoxybutane
Liquid chromatographic determination of propoxyphene and norpropoxyphene in plasma and breast milk, 103

Dimethylaminophenylalanylamido-substituted-ethoxymethylpurines
Purine acyclic nucleosides. 6-Dimethylamino-9-[(2-phenylalanylamido-1-substituted-ethoxy) methyl]purines as candidate antivirals, 1302

Dimethylcyclodextrin
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Dimethylethylaminomethylhydroxybenzenedimethanol
Comparative bioavailability and pharmacokinetics of three formulations of albuterol, 217

Diminium theory
Charge transfer in the mechanism of drug action involving quinoxaline di-*N*-oxides, 492

Diphenylnitrones
Octanol–water partition coefficients of substituted α,*N*-diphenylnitrones and benzonitrile *N*-oxides, 1129

Disease states
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321
Kinetics of drug action in disease states XI: Effect of nicotine on the pharmacodynamics and pharmacokinetics of phenobarbital and ethanol in rats, 412

Disinfection
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892

Disopyramide
Pharmacologically active conformation of disopyramide: Evidence from apparent pK_a measurements, 750
Drug distribution within human milk phases, 1071

Dispersions
Relationship between powder surface characteristics and viscoelastic properties of powder-filled semisolids, 3
Application of differential scanning calorimetry to the study of solid drug

dispersions, 283
Phase distribution studies on an oil–water emulsion based on a eutectic mixture of lidocaine and prilocaine as the dispersed phase, 1192

Dispersion forces
Dispersion forces and plastic deformation in tablet bond, 768

Dispersion model
Hepatic elimination—dispersion model, 585

Dissociation constants
Determination of dissociation constants of 5-[1-hydroxy-2-[(1-methylethyl)amino]ethyl]-1-3-benzenediol, 72

Dissolution
Dissolution dialysis studies of metronidazole–montmorillonite adsorbates, 214
Surfactant effect on the dissolution of sulfanilamide granules, 269
Observations on the dissolution behavior of a tablet formulation: Effect of compression forces, 575
Evaluation of lincomycin as a cholesterol gallstone dissolution rate accelerator, 621
Effect of molecular structure variation on the disintegrant action of sodium starch glycolate, 647
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172
Cholesterol monohydrate dissolution rate studies in aqueous micellar sodium chenodeoxycholate solutions, 1178
Dissolution of carboxylic acids III: The effect of polyionizable buffers, 1305

Dissolution rates
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical bases and their hydrochloride salts I: Phenazopyridine, 142
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical acids and their sodium salts II: Salicylic acid, theophylline, and benzoic acid, 148
Chemical reaction, diffusion, and ionization model for dissolution of oxygen acids and carbon acids, 175

Dissolution rate studies
Dissolution rate studies of compression-molded units made from hydroxypropyl cellulose films, 540

Distintegration
Effect of molecular structure variation on the disintegrant action of sodium starch glycolate, 647

Dithiocarbamate derivatives
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Diuretics
Diuretics: Chemistry, pharmacology, and clinical applications (Puschett and Greenberg, book reviews), 798

Diuretic activity
Liquid chromatographic analysis of ethacrynic acid and degradation products in pharmaceutical systems, 220
Chlorthalidone pharmacodynamics in beagle dogs, 851
Degradation of chlorthalidone in methanol: Kinetics and stabilization, 857
Effects of magnesium oxide on trichlormethiazide bioavailability, 862
Relative bioavailability of chlorthalidone in humans after single oral doses, 995

Diuretic agents
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438
Urinary protein binding, kinetics, and dynamics of furosemide in nephrotic patients, 603

DNA synthesis
Antitumor agents 68: Effects of a series of helenalin derivatives on P-388 lymphocytic leukemia nucleic acid and protein synthesis, 250
Antineoplastic activity of a series of boron analogues of α-amino acids, 755

Dodecanol
Acid-catalyzed hydrolysis of sodium dodecyl sulfate, 1047

Dodecylazacycloheptanone
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Dopamine
Direct evidence for brain-specific release of dopamine from a redox delivery system, 1033

Dopamine receptors
Multiple dopamine receptors (Titeler, book reviews), 910

Dopaminergic activity
Synthesis and pharmacological evaluation of aromatic dihydroxylated spiro[indan-1,3′-pyrrolidine] and spiro[indan-2,2′-pyrrolidine] derivatives, 553

Dopaminergic effects
cis- and *trans*-4-*n*-propyl-1,2,3,4,4a,5,6,10b-octahydrobenzo(*f*)quinolines, 672

Dosage forms
Pharmaceutical dosage forms: Parenteral medications, vol. 1 (Avis, Lachman, and Lieberman, book reviews), 907

Dosing intervals
Periodic dosage regimens with unequal dosing intervals (open forum), 1022

Doxorubicin
Rapid analysis of doxorubicin in plasma by radial compression liquid chromatography, 1225

Drugs
Drugs and the pharmaceutical sciences, vol. 21: Drugs and nutrients—the interactive effects (Roe and Campbell, book reviews), 701

Drug absorption
Assessment of drug absorption after oral administration, 388

Drug action
Mechanism of drug action (Singer, Mansour, and Ondarza, book reviews), 910

Drug delivery systems
Intrinsic release rate from matrix-type drug delivery systems, 685

Drug design
Drug design: Fact or fantasy? (Jolles and Wooldrige, book reviews), 904

Drug dynamics
Drug dynamics for analytical, clinical, and biological chemists (Gudzinowicz, Younkin, and Gudzinowicz, book reviews), 1141

Drug therapy in infants
Drug therapy in infants: Pharmacologic principles and clinical experience (Roberts, book reviews), 1027

Dynamic angle of repose
Studies of powder flow using a recording powder flowmeter and measurement of the dynamic angle of repose, 11

Dynamic mechanical testing
Relationship between powder surface characteristics and viscoelastic properties of powder-filled semisolids, 3

Dyphylline
Preparation and characterization of potential prodrugs of dyphylline, 184
Bioavailability of dyphylline and dyphylline–guaifenesin tablets in humans, 335

Dyphylline–guaifenesin
Bioavailability of dyphylline and dyphylline–guaifenesin tablets in humans, 335

Eel calcitonin
Enzyme immunoassay for elcatonin, a synthetic analogue of eel calcitonin, in plasma, 300

Elcatonin
Enzyme immunoassay for elcatonin, a synthetic analogue of eel calcitonin, in plasma, 300

Elimination half-life
Estimation of variance for harmonic mean half-lives, 229

Enkephalins
Nasal delivery of polypeptides I: Nasal absorption of enkephalins in rats, 394
High-performance liquid chromatographic analsis of pulmonary metabolites of leu- and met-enkephalins in isolated perfused rat lung, 1010

Enterohepatic cycling
Interpretation of area under the curve measurements for drugs subject to enterohepatic cycling, 227
Accumulation and time to steady state for drugs subject to enterohepatic cycling: A stimulation study, 1331

Enviradene
Liquid chromatographic analysis of enviradene, a new antiviral agent, in plasma and its application in bioavailability studies in the dog, 846

Environmental chemistry
Environmental chemistry, vol. 3 (Bowen, book reviews), 906

Enzyme induction
Effect of phenobarbital pretreatment on the plasma and urinary levels of (−)-α-acetylmethadol and its metabolites, 331

Enzyme inhibition
Enzyme inhibition VIII: Mode of inhibition of reverse transcriptase activity by analogues, isomers, and related alkaloids of coralyne, 889

Epipodophyllotoxin analogue
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197

Epirizole
Preparations of agglomerated crystals of polymorphic mixtures and a new complex of indomethacin–epirizole by the spherical crystallization technique, 1152

Equilibration times
Effect of nonlinear protein binding on equilibration times for different initial conditions, 120

Erodible matrix
Microencapsulation and dissolution properties of a neuroleptic in a biodegradable polymer, poly(d,l-lactide), 21

Erythromycin
Alternate interpretation of the role of water in the erythromycin structure, 899
Interspecies correlation of the pharmacokinetics of erythrocmycin, oleandomycin, and tylosin, 943
Determination of erythromycin in serum and urine by high-performance liquid chromatography with ultraviolet detection, 1126

Estradiol
Percutaneous absorption of steroids: Effect of repeated application, 1337

Estrogen derivatives
Liquid chromatographic analysis of conjugated and esterified estrogens in tablets, 201

Ethacrynic acid
Liquid chromatographic analysis of ethacrynic acid and degradation products in pharmaceutical systems, 220

Ethanol
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321
Impact of dilution on the pharmacokinetic behavior of acetaminophen in rabbits after oral administration, 325
Kinetics of drug action in disease states XI: Effect of nicotine on the pharmacodynamics and pharmacokinetics of phenobarbital and ethanol in rats, 412

Ethanol metabolism inhibition
4-Methylpyrazole disposition in the dog: Evidence for saturable elimination, 895

Ethoxzolamide analogues
Topical carbonic anhydrase inhibitors III: Optimization model for corneal penetration of ethoxzolamide analogues, 155
Topical carbonic anhydrase inhibitors IV: Relationship between excised corneal permeability and pharmacokinetic factors, 525

Ethylaminodimethylacetanilide
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Ethylaminopropyltetrahydrobenzopyranopyridinone
Analysis of 3-(2-(ethylamino)propyl)-1,2,3,4- tetrahydro-5*H*(1)benzo-pyrano(3,4-c)pyridin-5-one in plasma by liquid chromatographic column switching after derivatizing the secondary amine with fluorescein-6-isothiocyanate, 1091

Ethylidene lignan P
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197

Ethylidene lignan VP-16
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197

Ethyl myristate
Prediction of solubility in nonideal multicomponent systems using the UNIFAC group contribution model, 634

Etofibrate
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295

Etoposide
Stability-indicating liquid chromatographic determination of etoposide and benzyl alcohol in injectable formulations, 197
Etoposide (VP-16): Current status and new developments (Issell, Muggia, and Carter, book reviews), 799

Exsorption
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Extended Hildebrand solubility approach
Extended Hildebrand solubility approach: Sulfonamides in binary and ternary solvents, 277

Fascioliasis
Incidence of experimental fascioliasis on hepatic disposition of [^{3}H]tetracycline and [^{14}C]rafoxanide in rats, 1004

Fenoprofen
Stereoselective inversion of (*R*)-fenoprofen to (*S*-fenoprofen in humans, 82

Fentanyl analogues
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

Fibronectin
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922

Film irregularities
Literature citations for "effect of film irregularities on sunscreen efficacy" (open forum), 232

First-order processes
Graphical approach for determining whether absorption and elimination rate constants are equal in the one-compartment open model with first-order processes, 582

First-pass metabolism
Effect of vitamin K_3 on the first-pass elimination of propranolol in the rat, 578

Flocculation
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Flow-injection analysis
Automated flow-injection pseudotitration of boric acid, 886

Flow-through diffusion cell
Methods for in vitro percutaneous absorption studies IV: The flow-through diffusion cell, 64

Flubiprofen
Predictive relationships in the water solubility of salts of a nonsteroidal anti-inflammatory drug, 815

Fluorescein
Drug absorption from inhalation aerosols administered by positive-pressure ventilation I: Administration of a characterized, solid disodium fluorescein aerosol under a controlled respiratory regime to the beagle dog, 934
Drug absorption from inhalation aerosols administered by positive-pressure ventilation II: Effect of disodium fluorescein aerosol particle size on fluorescein absorption kinetics in the beagle dog respiratory tract, 939

Fluorescein-labeled melanotropin
Synthesis and biological evaluation of the superagonist [N^{α}-chlorotriazinylaminofluorescein- Ser^1,Nle^4,D-Phe^7]-α-MSH, 237

Fluorobiphenylylpropionic acid
Predictive relationships in the water solubility of salts of a nonsteroidal anti-inflammatory drug, 815
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Fluoromethylhistidine
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Fluorophenylalanine
Structure-activity relationships among substituted N-benzoyl derivatives of phenylalanine and its analogues in a microbial antitumor prescreen III: Derivatives of *p*-Fluoro-DL-phenylalanine, 40

Fluorouracil
Pulmonary elimination of 5-fluorouracil in anesthetized rats, 1095

Fluoxymesterone
Liquid chromatographic assay for fluoxymesterone in human serum with application to a preliminary bioavailability study, 308

Flurbiprofen
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Folate antagonists
Folate antagonists as therapeutic agents, vol. 1: Biochemistry, molecular actions, and synthetic design; vol. 2: Pharmacology, experimental and clinical therapeutics (Sirotnak, Burchall, Ensminger, and Montgomery, book reviews), 905

Formaldehyde toxicity
Formaldehyde toxicity (Gibson, book reviews), 804

Formulation
Materials used in pharmaceutical formulation (Florence, book reviews), 905

Friction coefficients
Effect of lubricant level and applied compressional pressure on surface friction of tablets, 697

Furegrelate
Liquid chromatographic–ultraviolet methods for furegrelate in serum and urine: Preliminary pharmacokinetic evaluation in the dog, 455

Furosemide
Urinary protein binding, kinetics, and dynamics of furosemide in nephrotic patients, 603

Gallbladder emptying
Interpretation of area under the curve measurements for drugs subject to enterohepatic cycling, 227
Accumulation and time to steady state for drugs subject to enterohepatic cycling: A stimulation study, 1331

Gallium
Determination of gallium concentration in "blood-free" tissues using a radiolabeled blood marker, 1007

Gallstone dissolution
Evaluation of lincomycin as a cholesterol gallstone dissolution rate accelerator, 621

Gastric ulcers
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Gelatin
Shifts in the apparent ionization constant of the carboxylic acid groups of gelatin, 1317

Gelatin–base coacervation systems
Phase separation induced in gelatin–base coacervation systems by addition of water-soluble nonionic polymers II: Effect of molecular weight, 469

Gepirone hydrochloride
Characterization of polymorphism of gepirone hydrochloride, 1041

Glucocorticoid effects
Liquid chromatographic procedure for the quantitative analysis of megestrol acetate in human plasma, 664

Glucose
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Glutaric acid
Simultaneous liquid chromatographic determination of glutaric acid, phenylephrine, and benzyl alcohol in a prototype nasal spray with application to di- and tricarboxylic acids, 312

Glycyrrhizine
Anticariogenic activity of licorice and glycyrrhizine I: Inhibition of in vitro plaque formation by *Streptococcus mutans*, 79

Graphical approach
Graphical approach for determining whether absorption and elimination rate constants are equal in the one-compartment open model with first-order processes, 582

Griseofulvin
Characterization of drug loading in crospovidone by x-ray photoelectron spectroscopy, 963

Harmonic mean elimination half-life
Estimation of variance for harmonic mean half-lives, 229

Heat transport model
Moisture sorption kinetics for water-soluble substances IV: Studies with mixtures of solids, 124

Helenalin derivatives
Antitumor agents 68: Effects of a series of helenalin derivatives on P-388 lymphocytic leukemia nucleic acid and protein synthesis, 250

Hepatic drug elimination
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205

Hepatic drug-metabolizing capacity
Dose-independent pharmacokinetics of trimethadione and its metabolite in rats, 340

Hepatic elimination
Hepatic elimination—dispersion model, 585

Hepatic extraction ratio
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205

Hepatic microsomal oxidative enzymes
Influence of short-term water deprivation on antipyrine disposition, 338

Hepatic necrosis
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321

Hepatotoxicity
Impact of dilution on the pharmacokinetic behavior of acetaminophen in rabbits after oral administration, 325

Herpes simplex virus
Effect of fatty acids and alcohols on the penetration of acyclovir across human skin in vitro, 688
Hydrolysis and solvent-dependent 2′→5′ and 3′→5′ acyl migration in prodrugs of 9-β-D-arabinofuranosyladenine, 825
Electrochemistry of purine derivatives 1: Direct determination for the antiviral drug 9-[(1,3-dihydroxy-2-propoxy)methyl]guanine by anodic differential pulse voltammetry, 1078
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157
Purine acyclic nucleosides. 6-Dimethylamino-9-[(2-phenylalanylamido-1-substituted-ethoxy) methyl]purines as candidate antivirals, 1302

Heterocyclic chemistry
Comprehensive heterocyclic chemistry (Katritzky and Rees, book reviews), 233

Hexadecyltrimethylammonium bromide
Micellar effects on the basic hydrolysis of indomethacin and related compounds, 1184

Hexylresorcinol
Prediction of solubility in nonideal multicomponent systems using the UNIFAC group contribution model, 634

Histamine-related diseases
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Histidine decarboxylase inhibition
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Homogeneity
Effects of adhesion on mixing homogeneity II: Highest attainable degree of mixing of a polydisperse ingredient and a monodisperse diluent, 999

HPLC
HPLC analysis of biological compounds: A laboratory guide, volume 26 (Hancock and Sparrow, book reviews), 111

Hydralazine
Synthesis, formulation, and clinical pharmacological evaluation of hydralazine pyruvic acid hydrazone in two healthy volunteers, 193
Liquid chromatographic determination of dihydralazine and hydralazine in human plasma and its application to pharmacokinetic studies of dihydralazine, 1270

Hydralazine pyruvic acid hydrazone
Synthesis, formulation, and clinical pharmacological evaluation of hydralazine pyruvic acid hydrazone in two healthy volunteers, 193

Hydrazine
Determination of hydrazine in pharmaceuticals IV: Hydrazine and benzylhydrazine in isocarboxazid, 105

Hydrochlorothiazide
Observations on the dissolution behavior of a tablet formulation: Effect of compression forces, 575
Kinetics of hydrochlorothiazide absorption in humans, 765

Hydrocortisone
Solution kinetics of a water-soluble hydrocortisone prodrug: Hydrocortisone-21-lysinate, 87
Percutaneous absorption of steroids: Effect of repeated application, 1337

Hydrocortisone lysinate
Solution kinetics of a water-soluble hydrocortisone prodrug: Hydrocortisone-21-lysinate, 87

Hydrogen bond formation
Infrared study of the interaction between caffeine and hydroxylic derivatives, 660

Hydrogen bonding
Pharmacologically active conformation of disopyramide: Evidence from apparent pK_a measurements, 750

Hydroxyapatite beads
Nonbactericidal approach to reduce colonization of plaque microflora on teeth in vitro and in vivo, 1228

Hydroxybutylthienobenzoxepinone
Application of differential scanning calorimetry to the study of solid drug dispersions, 283

Hydroxydiethylaminodimethylacetanilide
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Hydroxyethoxymethylguanine
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082

Hydroxyethylaminodimethylacetanilide
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Hydroxylase inhibitors
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Hydroxylic derivatives
Infrared study of the interaction between caffeine and hydroxylic derivatives, 660

Hydroxylpropyl cellulose films
Dissolution rate studies of compression-molded units made from hydroxypropyl cellulose films, 540

Hydroxymethylaminomethylbenzenemethanol
Determination of dissociation constants of 5-[1-hydroxy-2-[(1-methylethyl)amino]ethyl]-1-3-benzenediol, 72

Hydroxymethyldihydroxymethyldioxoimidazolidinylhydroxymethylurea
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892

Hydroxymethylethylaminoethylbenzenediol
Determination of dissociation constants of 5-[1-hydroxy-2-[(1-methylethyl)amino]ethyl]-1-3-benzenediol, 72

Hydroxymethylpregnadienedione acetate
Liquid chromatographic procedure for the quantitative analysis of megestrol acetate in human plasma, 664

Hydroxyoctadecylmethoxybenzoquinone
Isolation, structural elucidation, and chemical synthesis of 2-hydroxy-3-octadecyl-5-methoxy-1,4-benzoquinone (irisoquin), a cytotoxic constituent of *Iris missouriensis*, 1114

Hydroxytyptamine
Influence of chlorpromazine on the accumulation of 5-hydroxytryptamine

by interaction with ATP, 1188

Hypersensitivity
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Hypertension
Hypertension: Physiological basis and treatment (Ong and Lewis, book reviews), 797

Hypnotic agent
Pharmacokinetics of methyprylon following a single oral dose, 1001
Brotizolam radioimmunoassay: Development, evaluation, and application to human plasma samples, 1265

Hypnotic effect
Pharmacodynamics of the hypnotic effect of salicylamide in rats, 599

Hypocalcemic activity
Enzyme immunoassay for elcatonin, a synthetic analogue of eel calcitonin, in plasma, 300
High molecular weight derivative of salmon calcitonin with prolonged hypocalcemic activity, 345

Hypochlorite
Adsorption of hypochlorite by aluminum hydroxide, 1019

Hypolipidemic activity
Hypolipidemic activity of 6-amino-2-mercapto-5-methylpyrimidine-4-carboxylic acid and related derivatives in rodents, 759

Hypolipidemic agents
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295

Hypotensive effect
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Iatrogenic disease
Iatrogenic disease (D'Arcy and Griffin, book reviews), 702

Immune modulation agents
Immune modulation agents and their mechanisms. Immunology series, vol. 25 (Fenichel and Chirigos, book reviews), 908

Immunopharmacology
Textbook of immunopharmacology (Dale and Foreman, book reviews), 909

Immunoregulatory peptide
Detection and quantitation of low levels of protected and unprotected (*R*)-amino acids in the synthesis of thymopentin, an immunoregulatory peptide, 489

Immunosuppressive properties
Extraction ratio of cyclosporine in a liver transplant patient with organ rejection, 901

Inclusion complexation
Improvement of dissolution and suppository release characteristics of flurbiprofen by inclusion complexation with Heptakis(2,6-di-*O*-methyl)-β-cyclodextrin, 841

Inclusion complexes
Quantitative structure–stability relationships among inclusion complexes of cyclodextrins I: Barbituric acid derivatives, 211

Indeloxazine
Determination of indeloxazine in plasma by liquid chromatography and gas chromatography–mass spectrometry, 559

Indium-111
In vivo dissolution measurement with indium-111 summation peak ratios, 1131

Indomethacin
Preparations of agglomerated crystals of polymorphic mixtures and a new complex of indomethacin–epirizole by the spherical crystallization technique, 1152
Micellar effects on the basic hydrolysis of indomethacin and related compounds, 1184
Dissolution of carboxylic acids III: The effect of polyionizable buffers, 1305

Induction
Effect of phenobarbital pretreatment on the plasma and urinary levels of (−)-α-acetylmethadol and its metabolites, 331

Inflammation
Bioanalysis and disposition of α-fluoromethylhistidine, a new histidine decarboxylase inhibitor, 871

Inhalation aerosols
Drug absorption from inhalation aerosols administered by positive-pressure ventilation I: Administration of a characterized, solid disodium fluorescein aerosol under a controlled respiratory regime to the beagle dog, 934
Drug absorption from inhalation aerosols administered by positive-pressure ventilation II: Effect of disodium fluorescein aerosol particle size on fluorescein absorption kinetics in the beagle dog respiratory tract, 939

Input functions
Segmentally continuous input functions in linear multicompartment systems, 136

Insect repellents
Chiral-phase capillary gas chromatography and mosquito repellent activity of some oxazolidine derivatives of (+)- and (−)-citronellal, 534

Insulin
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922

Interface-controlled transport
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618

Interfacial barrier-controlled dissolution
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172
Cholesterol monohydrate dissolution rate studies in aqueous micellar sodium chenodeoxycholate solutions, 1178

Interfacial resistance
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618
Evaluation of lincomycin as a cholesterol gallstone dissolution rate accelerator, 621

Interferon agents
Anticancer and interferon agents: Synthesis and properties (Ottenbrite and Butler, book reviews), 797

Interspecies correlation
Interspecies correlation of the pharmacokinetics of erythrocmycin, oleandomycin, and tylosin, 943
Pharmacokinetic scale-up: Accurate prediction of human pharmacokinetic profiles from animal data, 1097

Intestinal perfusion studies
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

INTRAV
INTRAV and ORAL: BASIC interactive computer programs for estimating pharmacokinetic parameters, 113

Intrinsic release rate
Intrinsic release rate from matrix-type drug delivery systems, 685

Ionization
Shifts in the apparent ionization constant of the carboxylic acid groups of gelatin, 1317

Ionization constants
Overlapping ionization constants for cefotaxime, 85

Ionization model
Chemical reaction, diffusion, and ionization model for dissolution of oxygen acids and carbon acids, 175

Irisoquin
Isolation, structural elucidation, and chemical synthesis of 2-hydroxy-3-octadecyl-5-methoxy-1,4-benzoquinone (irisoquin), a cytotoxic constituent of *Iris missouriensis*, 1114

Isocarboxazid
Determination of hydrazine in pharmaceuticals IV: Hydrazine and benzylhydrazine in isocarboxazid, 105

Isoniazid
Kinetic studies of the interaction between isoniazid and reducing sugars, 427

Isopentenoids
Isopentenoids in plants: biochemistry and function (Nes, Fuller, and Tsai, book reviews), 233

Ivermectin
Pharmacokinetics of ivermectin administered intravenously to cattle, 1105
Oral controlled-release delivery of ivermectin in cattle via an osmotic pump, 1108

Jackknife technique
Estimation of variance for harmonic mean half-lives, 229

Ketamine
Ketamine metabolism: Identification and synthesis of a deaminated product, 486

Ketoconazole
Antifungal properties of 3-*n*-Alkyn-1-ols and synergism with 2-*n*-alkyn-1-ols and ketoconazole, 556

Kinetic–dynamic model
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711

Lactose
Crystallization of excipients in tablets, 128
In vivo dissolution measurement with indium-111 summation peak ratios, 1131

Lamination
Triaxial compression of "cappable" formulations, 1239

Least-squares curve-fitting
STRITERFIT, a least-squares pharmacokinetic curve-fitting package using a programmable calculator, 545

Lecithin
Examination of the sephadex G_{10} beads uptake method for determination of bile salt monomer concentration in taurocholate–lecithin solutions, 880

Leu-enkephalin
High-performance liquid chromatographic analsis of pulmonary metabolites of leu- and met-enkephalins in isolated perfused rat lung, 1010

Leukotrienes
The leukotrienes: Chemistry and biology (Chakrin and Bailey, book reviews), 112

Licorice
Anticariogenic activity of licorice and glycyrrhizine I: Inhibition of in vitro plaque formation by *Streptococcus mutans*, 79

Lidocaine
Factors affecting the measurement of lidocaine protein binding by equilibrium dialysis in human serum, 57
Effect of pH on charcoal adsorption of lidocaine, methadone, pilocarpine, and procaine, 476
Phase distribution studies on an oil–water emulsion based on a eutectic mixture of lidocaine and prilocaine as the dispersed phase, 1192
Simultaneous quantitation of lidocaine and its four metabolites by high-performance liquid chromatography: Application to studies on in vitro and in vivo metabolism of lidocaine in rats, 1219

Lincomycin
Evaluation of lincomycin as a cholesterol gallstone dissolution rate accelerator, 621

Linear trapezoidal rule
Wagner's exact Loo–Riegelman equation: The need for a criterion to choose between the linear and logarithmic trapezoidal rule, 793

Lipoproteins
Plasma lipoproteins as drug carriers: Pharmacological activity and disposition of the complex of β-sitosteryl-β-D-glucopyranoside with plasma lipoproteins, 1259

Liposomes
Liposomes (Ostro, book reviews), 701
Impact of liposomal drug carriers on drug pharmacokinetics, 897
Lymphatic transport of liposome-encapsulated agents: Effects of liposome size following intraperitoneal administration, 915
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922
Decreased stability in liposomal suspensions: Accelerated loss of *p*-nitrophenyl acetate, 1167
Phase behavior of carbamyloxyphosphatidylcholine, a sphingolipid analogue, 1255

Liposome-encapsulated agents
Lymphatic transport of liposome-encapsulated agents: Effects of liposome size following intraperitoneal administration, 915

Liposome technology
Liposome technology, vol. 1: Preparation of liposomes; vol. 2: Incorporation of drugs, proteins, and genetic materials; vol. 3: Targeted drug delivery and biological interaction (Gregoriadis, book reviews), 802

Liquid chromatography
New approaches in liquid chromatography (Kalász, book reviews), 592
Instrumental liquid chromatography (Parris, book reviews), 592
Clinical liquid chromatography vols. 1 and 2 (Kabra and Marton, book reviews), 804

Liquid crystals
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

Lisinopril
Synthesis of N^2- [(*S*)-1-carboxy-3-phenylpropyl]-L-lysyl-L-proline (lisinopril), 352

Lithium
Bronchorelaxing activity of lithium in vitro, 1120

Liver alcohol dehydrogenase
4-Methylpyrazole disposition in the dog: Evidence for saturable elimination, 895

Liver disease
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321

Lodoxamide
Analysis of the variance components in a pharmaceutical aerosol product: Lodoxamide tromethamine, 978

Logarithmic trapezoidal rule
Wagner's exact Loo–Riegelman equation: The need for a criterion to choose between the linear and logarithmic trapezoidal rule, 793

Loo–Riegelman method
Evaluation of drug absorption by nonlinear regression, statistical moments, and Loo–Riegelman methods, 359

Lorapride
Quantitative thin-layer and high-performance liquid chromatographic determination of lorapride in biological fluids and a pharmacokinetic study in humans, 1215

Lymphatic transport
Lymphatic transport of liposome-encapsulated agents: Effects of liposome size following intraperitoneal administration, 915

Lymphocytic leukemia
Computer-assisted structure–anticancer activity correlations of carbamates and thiocarbamates, 831

Lymphoid leukemia
Computer-assisted structure–anticancer activity correlations of carbamates and thiocarbamates, 831

Lyotropic liquid crystals
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

Macrocyclic lactone disaccharide
Pharmacokinetics of ivermectin administered intravenously to cattle, 1105
Oral controlled-release delivery of ivermectin in cattle via an osmotic pump, 1108

Macrolide antibiotics
Macrolide antibiotics. Chemistry, biology, and practice (Ōmura, book reviews), 1023

Macromolecular chemistry
Macromolecular chemistry, vol. 3 (Jenkins and Kennedy, book reviews), 1023

Magaldrate
Action of hydrochloric acid on aluminum hydroxide–magnesium hydroxide gels and magaldrate: ^{27}Al NMR and pH-stat studies, 1075

Magnesium hydroxide
Action of hydrochloric acid on aluminum hydroxide–magnesium hydroxide gels and magaldrate: ^{27}Al NMR and pH-stat studies, 1075

Magnesium oxide
Effects of magnesium oxide on trichlormethiazide bioavailability, 862

Magnesium stearate
Effect of lubricant level and applied compressional pressure on surface friction of tablets, 697

Mannitol
Crystallization of excipients in tablets, 128

Marker
Determination of gallium concentration in "blood-free" tissues using a radiolabeled blood marker, 1007

Mass transfer
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612

Matrix-type drug delivery system
Intrinsic release rate from matrix-type drug delivery systems, 685

Mean residence time
The mean residence time of drugs in the systemic circulation, 791
Steady-state volume of distribution after multiple doses, 1134
Comparison of statistical moment parameters to C_{max} and t_{max} for detecting differences in in vivo dissolution rates, 1340

Meclizine
Comparison of meclizine levels in the plasma of rats and dogs after intranasal, intravenous, and oral administration, 1111

Medicinal chemistry
Medicinal chemistry: A biochemical approach (Nogrady, book reviews), 1025
Second SCI-RSC medicinal chemistry symposium (Emmett, book reviews), 1137

Medicinal plants
Medicinal plants and traditional medicine in Africa (Soowora, book reviews), 364

Megestrol acetate
Liquid chromatographic procedure for the quantitative analysis of megestrol acetate in human plasma, 664

Melanocyte bioassays
Synthesis and biological evaluation of the superagonist [N^{α}-chlorotriazinylaminofluorescein- Ser^1,Nle^4,D-Phe^7]-α-MSH, 237

Melanocyte-stimulating hormone
Synthesis and biological evaluation of the superagonist [N^{α}-chlorotriazinylaminofluorescein- Ser^1,Nle^4,D-Phe^7]-α-MSH, 237

Melanotropic peptides
Synthesis and biological evaluation of the superagonist [N^{α}-chlorotriazinylaminofluorescein- Ser^1,Nle^4,D-Phe^7]-α-MSH, 237

Melphalan
Stability of melphalan solutions during preparation and storage, 348

Membrane diffusion
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618

Membrane plus a reservoir
Pharmacokinetics of transdermal drug delivery, 718

Meperidine
Contribution of the lung to total body clearance of meperidine in the dog, 569

Metabolic clearance
General method for evaluating the fraction of the irreversible organ clearance due to conversion of drug to a primary metabolite, 722

Metal ions
Chloride ion nuclear magnetic resonance spectroscopy probe studies of copper and nickel binding to serum albumins, 61

Met-enkephalin
High-performance liquid chromatographic analsis of pulmonary metabolites of leu- and met-enkephalins in isolated perfused rat lung, 1010

Methacrylic acid
Bioadhesive polymers as platforms for oral controlled drug delivery II: Synthesis and evaluation of some swelling, water-insoluble bioadhesive polymers, 399

Methadone
Effect of pH on charcoal adsorption of lidocaine, methadone, pilocarpine, and procaine, 476
Pharmacokinetics of morphine and its surrogates VII: High-performance liquid chromatographic analyses and pharmacokinetics of methadone and its derived metabolites in dogs, 1203

Methylaminodiphenylmethylpropionoxybutane
Liquid chromatographic determination of propoxyphene and norpropoxyphene in plasma and breast milk, 103

Methylethylsulfonylphenylpropenylbenzimidazolamine
Liquid chromatographic analysis of enviradene, a new antiviral agent, in *plasma and its application in bioavailability studies in the dog, 846*

Methylhydroxydioxopregnadienoate
Synthesis of a new anti-inflammatory steroidal acid ester: Methyl 11β-hydroxy-3,20-dioxo-1,4-pregnadien-21-oate, 180

Methylmethylphenylethylthiourea
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Methylnitroimidazoleethanol
Serum-catalyzed hydrolysis of metronidazole amino acid esters, 883

Methylphenoxybenezeneacetic acid
Stereoselective inversion of (*R*)-fenoprofen to (*S*-fenoprofen in *humans, 82*

Methylphenylethyldithiocarbamate
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Methylprednisolone
Strategies in the design of solution-stable, water-soluble prodrugs I: A *physical–organic approach to pro-moiety selection for 21-esters of* corticosteroids, 365
Strategies in the design of solution-stable, water-soluble prodrugs II: *Properties of micellar prodrugs of methylprednisolone, 375*
Strategies in the design of solution-stable, water-soluble prodrugs III: Influence of the pro-moiety on the bioconversion of 21-esters of *corticosteroids, 382*

Methylpyrazole
4-Methylpyrazole disposition in the dog: Evidence for saturable elimination, 895

Methyltetrahydronaphthylpiperidinylphenylpropanamide
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

Methylthiourea
Liquid chromatographic determination of noxytiolin and 1-methyl-2-thiourea in serum: Application to pharmacokinetic studies in rabbits and humans, 224

Methyprylon
Pharmacokinetics of methyprylon following a single oral dose, 1001

Metkephamid
Nasal delivery of polypeptides I: Nasal absorption of enkephalins in rats, 394

Metoclopramide
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Metronidazole
Dissolution dialysis studies of metronidazole–montmorillonite adsorbates, 214

Metronidazole amino acid esters
Serum-catalyzed hydrolysis of metronidazole amino acid esters, 883

Micellar solubilization
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Micellar system
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618
Examination of the sephadex G_{10} beads uptake method for determination of bile salt monomer concentration in taurocholate–lecithin solutions, 880
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172
Cholesterol monohydrate dissolution rate studies in aqueous micellar sodium chenodeoxycholate solutions, 1178
Micellar effects on the basic hydrolysis of indomethacin and related compounds, 1184

Microencapsulation
Microencapsulation and dissolution properties of a neuroleptic in a biodegradable polymer, poly(d,l-lactide), 21
Preparation of serum albumin microcapsules, 342
Phase separation induced in gelatin–base coacervation systems by addition of water-soluble nonionic polymers II: Effect of molecular weight, 469
Preparation and evaluation of microencapsulated and coated ion-exchange resin beads containing theophylline, 643
Microencapsulation and related drug processes. Drugs and pharmceutical sciences series, vol. 20 (Deasy, book reviews), 1141

Mitolactol
Assay for mitolactol and its bifunctional alkylating metabolites in plasma, 983

Mixture response-surface methodology
Prediction of xanthine solubilities using statistical techniques, 132

Moisture sorption
Moisture sorption kinetics for water-soluble substances IV: Studies with mixtures of solids, 124
Crystallization of excipients in tablets, 128

Monoclonal antibodies
Monoclonal antibodies and cancer (Wright, book reviews), 906

Monolithic slab
Pharmacokinetics of transdermal drug delivery, 718

Montmorillonite adsorbates
Dissolution dialysis studies of metronidazole–montmorillonite adsorbates, 214

Morphine sulfate
Analgesic potencies of morphine 3- and 6-sulfates after intracerebroventricular administration in mice: Relationship to *structural characteristics defined by mass spectrometry and nuclear* magnetic resonance, 821
Analgesic potencies of morphine 3- and 6-sulfates after *intracerebroventricular administration in mice: Relationship to* structural characteristics defined by mass spectrometry and nuclear magnetic resonance, 821

Morphine-type analgetic
Pharmacokinetics of morphine and its surrogates VI: Bioanalysis, solvolysis kinetics, solubility, pK'_a values, and protein binding of buprenorphine, 515

Mosquito repellents
Chiral-phase capillary gas chromatography and mosquito repellent activity of some oxazolidine derivatives of (+)- and (−)-citronellal, 534

Moxalactam
Epimerization kinetics of moxalactam, its derivatives, and carbenicillin in aqueous solution, 68

Moxalactam derivatives
Epimerization kinetics of moxalactam, its derivatives, and carbenicillin in aqueous solution, 68

Mucopolysaccharide sulfates
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Mucopolysaccharide sulfation inhibitors
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Multiple-regression analysis
Residuals in multiple regression analysis, 1053

Myeloma
Stability of melphalan solutions during preparation and storage, 348

Nabilone
Analysis of solid-state carbon-13 NMR spectra of polymorphs (benoxaprofen and nabilone) and pseudopolymorphs (cefazolin), 565

Naltrexol
Pharmacokinetics of morphine and its surrogates V: Naltrexone and naltrexone conjugate pharmacokinetics in the dog as a function of dose, 50

Naltrexone
Pharmacokinetics of morphine and its surrogates V: Naltrexone and naltrexone conjugate pharmacokinetics in the dog as a function of dose, 50

Naphthoic acid
Dissolution of carboxylic acids III: The effect of polyionizable buffers, 1305

Narcosis
A model for *p*-aminobenzoic acid ester narcosis in goldfish, 1236

Narcotic agonist/antagonist
Cyclazocine and norepinephrine uptake, metabolism, and turnover in the rat brain, 97

Nasal absorption
Nasal delivery of polypeptides I: Nasal absorption of enkephalins in rats, 394
Effects of dose, pH, and osmolarity on nasal absorption of secretin in rats, 550
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608
Mechanism of nasal absorption of drugs II: Absorption of L-tyrosine and the effect of structural modification on its absorption, 1298

Natural products
The total synthesis of natural products, vol. 6 (ApSimon, book reviews), 803
Natural products and drug development (Krogsgaard-Larsen, Christensen, and Kofod, book reviews), 904
Chemistry and biotechnology of biologically active natural products (Szantay, Gottsegen, and Kovacs, book reviews), 1143

Natural products chemistry
Natural products chemistry, vol. III (Nakanishi, Goto, Ito, Natori, and Nozoe, book reviews), 904

Nephrotic patients
Urinary protein binding, kinetics, and dynamics of furosemide in nephrotic patients, 603

Neuropeptides
Analysis of neuropeptides by liquid chromatography and mass spectrometry. Techniques and instrumentation in analytical chemistry—Vol. 6 (Desiderio, book reviews), 1027

Neuropsychopharmacology
Fundamentals of neuropsychopharmacology (Feldman and Quenzer, book reviews), 800

Neutron activation
Radiolabeling of intact tablets by neutron activation for in vivo scintigraphic studies, 590

New look
A new look (editorial), 913

Nickel
Chloride ion nuclear magnetic resonance spectroscopy probe studies of copper and nickel binding to serum albumins, 61

Nicotine
Kinetics of drug action in disease states XI: Effect of nicotine on the pharmacodynamics and pharmacokinetics of phenobarbital and ethanol in rats, 412

Nicotinic acid
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295
Methods for in vitro percutaneous absorption studies V: Permeation through damaged skin, 1062

Nicotinoyloxyethylchlorophenoxymethylpropionate
Disposition of etofibrate, clofibric and nicotinic acid esters, and their products in dogs, 295

Nitrofurantoin
Assay of nitrofurantoin oral suspensions contaminated with 3-(5-nitrofurfurylideneamino)hydantoic acid, 100
Dose- and time-dependent kinetics of the renal excretion of nitrofurantoin in the rabbit, 165

Nitrofurfurylideneaminohydantoic acid
Assay of nitrofurantoin oral suspensions contaminated with 3-(5-nitrofurfurylideneamino)hydantoic acid, 100

Nitroglycerin
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625
Effect of infusion administration set on the delivery rate and plasma concentration of nitroglycerin in dogs, 774

NMR
Chloride ion nuclear magnetic resonance spectroscopy probe studies of copper and nickel binding to serum albumins, 61

NMR spectroscopy
Analysis of solid-state carbon-13 NMR spectra of polymorphs (benoxaprofen and nabilone) and pseudopolymorphs (cefazolin), 565

Nonabsorbable reference markers
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Nonisothermal recrystallization
Expected particle size distributions of crystals produced from nonisothermal recrystallization, 1322

Nonlinear least-squares regression analysis
Evaluation of nonlinear regression with extended least squares: Simulation study, 1327

Nonlinear pharmacokinetics
Novel method of calculating absolute bioavailability in nonlinear pharmacokinetics, 90

Nonlinear protein binding
Effect of nonlinear protein binding on equilibration times for different initial conditions, 120

Nonlinear regression
Evaluation of drug absorption by nonlinear regression, statistical moments, and Loo–Riegelman methods, 359

Nonsteroidal anti-inflammatory drugs
Inhibition of 5β-dihydrocortisone reduction in rat liver cytosol: A rapid spectrophotometric screen for nonsteroidal anti-inflammatory drug potency, 651
Predictive relationships in the water solubility of salts of a nonsteroidal anti-inflammatory drug, 815
Pharmacokinetics of taiprofenic acid in healthy and arthritic subjects, 953
Synthesis and anti-inflammatory and analgesic activities of 3-methyl-*N*-phenyl-1*H*-pyrazol-5-ylcarboxamides, 1013

Nonylphenylhydroxydecaoxyethylene
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172

Norepinephrine
Cyclazocine and norepinephrine uptake, metabolism, and turnover in the rat brain, 97
Norepinephrine. Frontiers of clinical neuroscience, vol. 2 (Ziegler and Lake, book reviews), 800

Norpropoxyphene
Liquid chromatographic determination of propoxyphene and norpropoxyphene in plasma and breast milk, 103

Noxytiolin
Liquid chromatographic determination of noxytiolin and 1-methyl-2-thiourea in serum: Application to pharmacokinetic studies in rabbits and humans, 224

Nutrients
Drugs and the pharmaceutical sciences, vol. 21: Drugs and nutrients—the interactive effects (Roe and Campbell, book reviews), 701

Obese Zucker rat
Altered drug–serum protein binding in the genetically obese zucker rat, 837

Obesity
Altered drug–serum protein binding in the genetically obese zucker rat, 837

Octoxynol 9
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Octoxynols
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Oleandomycin
Interspecies correlation of the pharmacokinetics of erythromcmycin, oleandomycin, and tylosin, 943

Oleic acid
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

One-compartment model
Periodic dosage regimens with unequal dosing intervals (open forum), 1022

One-compartment open model
Graphical approach for determining whether absorption and elimination rate constants are equal in the one-compartment open model with first-order processes, 582

ORAL
INTRAV and ORAL: BASIC interactive computer programs for estimating pharmacokinetic parameters, 113

Organ clearance
General method for evaluating the fraction of the irreversible organ clearance due to conversion of drug to a primary metabolite, 722

Organic synthesis
New pathways for organic synthesis: Practical applications of transition metals (Colquhoun, Holton, Thompson, and Twigg, book reviews), 362

Organometallic compounds
Dictionary of organometallic compounds (Buckingham and Macintyre, book reviews), 1024

Osmotic pump
Oral controlled-release delivery of ivermectin in cattle via an osmotic pump, 1108

Ovarian cancer
Stability of melphalan solutions during preparation and storage, 348

Oxalic acid
Expected particle size distributions of crystals produced from

nonisothermal recrystallization, 1322

Oxazolidine derivatives
Chiral-phase capillary gas chromatography and mosquito repellent activity of some oxazolidine derivatives of (+)- and (−)-citronellal, 534

Oxazolidinedione derivatives
Dose-independent pharmacokinetics of trimethadione and its metabolite in rats, 340

Oxprenolol
N-Dealkylation of oxprenolol: Formation of 3-aryloxypropane-1,2-diol, 3-aryloxylactic acid, and 2-aryloxyacetic acid metabolites in the rat, 33

P-388 lymphocytic leukemia
Antitumor agents 68: Effects of a series of helenalin derivatives on P–388 lymphocytic leukemia nucleic acid and protein synthesis, 250

Page charges
A welcome relief (editorial), 1145

Parameter estimates
Segmentally continuous input functions in linear multicompartment systems, 136

Parenteral medications
Pharmaceutical dosage forms: Parenteral medications, vol. 1 (Avis, Lachman, and Lieberman, book reviews), 907

Particle size analysis
Modern methods of particle size analysis (Barth, book reviews), 1142

Particle size distribution
Expected particle size distributions of crystals produced from nonisothermal recrystallization, 1322

Partition coefficients
Solubility properties in polymers and biological media 5: An analysis of the physicochemical properties which influence octanol–water partition coefficients of aliphatic and aromatic solutes, 807
Octanol–water partition coefficients of substituted α,*N*-diphenylnitrones and benzonitrile *N*-oxides, 1129

Pediatric pharmacology
Principles of paediatric pharmacology (Maxwell, book reviews), 112

Peer review
A thanks to our reviewers—peer review revisited (editorial), 235

Penetration enhancer
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Penflutizide
Enantiomers of benzothiadiazine diuretics by direct chromatographic resolution of the racemic drugs, 438

Penicillin
A liquid chromatographic study of stability of the minor determinants of penicillin allergy: A stable minor determinant mixture skin test preparation, 448

Penicillin sensitivity
A liquid chromatographic study of stability of the minor determinants of penicillin allergy: A stable minor determinant mixture skin test preparation, 448

Pentopril
Disposition of pentopril, a new orally active angiotensin-converting enzyme inhibitor, and its active metabolite in rats, 947

Pentylenetetrazol
Kinetics of drug action in disease states XV: Effect of pregnancy of the convulsive activity of pentylenetetrazol in rats, 1233

Peptides
Peptide and protein reviews, vol. 2 (Hearn, book reviews), 499
Enhanced rectal absorption of sodium ampicillin by *N*-acyl derivatives of collagen peptide in rabbits and rats, 1058

Peptide drugs
High molecular weight derivative of salmon calcitonin with prolonged hypocalcemic activity, 345

Peptides—growth hormone
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922

Peptide synthesis
Synthesis and biological evaluation of the superagonist [N^{α}-chlorotriazinylaminofluorescein- Ser^{1},Nle^{4},D-Phe^{7}]-α-MSH, 237

Percutaneous absorption
Methods for in vitro percutaneous absorption studies IV: The flow-through diffusion cell, 64
Methods for in vitro percutaneous absorption studies V: Permeation through damaged skin, 1062
Phase distribution studies on an oil–water emulsion based on a eutectic mixture of lidocaine and prilocaine as the dispersed phase, 1192
Percutaneous absorption of steroids: Effect of repeated application, 1337

Percutaneous penetration enhancer
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Perfluorosulfonamidoalkyl ester of phosphorous acid
Nonbactericidal approach to reduce colonization of plaque microflora on teeth in vitro and in vivo, 1228

Permeability
Finite dose pharmacokinetics of skin penetration, 1100

Permeation
Methods for in vitro percutaneous absorption studies V: Permeation through damaged skin, 1062
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Perturbed angular correlation
In vivo dissolution measurement with indium-111 summation peak ratios, 1131

Petrolatum
Characterization of the shear sensitivity property of petrolatum, 290

PGF2α derivative
Drug release testing of a prostaglandin containing controlled-release vaginal device: Development of a semiautomated method, 1086

Pharmaceutical research
Progress in pharmaceutical research (Wooldridge, book reviews), 593

Pharmaceutical sciences
Remington's pharmaceutical sciences, 17th ed. (Gennaro, book reviews), 1143

Pharmacochemistry
Multidimensional pharmacochemistry. Design of safer drugs (Mager, book reviews), 1247

Pharmacodynamics
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321
Kinetics of drug action in disease states XI: Effect of nicotine on the pharmacodynamics and pharmacokinetics of phenobarbital and ethanol in rats, 412
Pharmacodynamics of the hypnotic effect of salicylamide in rats, 599
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711
Kinetics of drug action in disease states XV: Effect of pregnancy of the convulsive activity of pentylenetetrazol in rats, 1233

Pharmacokinetics
Applied biopharmaceutics and pharmacokinetics, 2nd ed. (Shargel and Yu, book reviews), 1140

Pharmacokinetic analysis
Assessment of drug absorption after oral administration, 388
STRITERFIT, a least-squares pharmacokinetic curve-fitting package using a programmable calculator, 545

Pharmacokinetic modeling
INTRAV and ORAL: BASIC interactive computer programs for estimating pharmacokinetic parameters, 113

Pharmacology
Essentials of pharmacology (Bevan and Thompson, book reviews), 111
Advances in pharmacology and chemotherapy, volume 20 (Garattini, Golden, and Hawking, book reviews), 363
Pharmacology of benzodiazepines (Usdin, Skolnick, Tallman, Greenblatt, and Paul, book reviews), 500
Annual review of pharmacology and toxicology, vol. 24 (George, Okum, and Cho, book reviews), 805

Phase separation
Phase separation induced in gelatin–base coacervation systems by addition of water-soluble nonionic polymers II: Effect of molecular weight, 469

Phenanthrenemethanols
Paired-ion liquid chromatographic method for the analysis of a phenanthrenemethanol antimalarial in whole blood, 433

Phenazopyridine
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical bases and their hydrochloride salts I: Phenazopyridine, 142

Phenethyl alcohol
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892

Phenobarbital
Kinetics of drug action in disease states XII: Effect of experimental liver diseases on the pharmacodynamics of phenobarbital and ethanol in rats, 321
Effect of phenobarbital pretreatment on the plasma and urinary levels of (−)-α-acetylmethadol and its metabolites, 331
Kinetics of drug action in disease states XI: Effect of nicotine on the pharmacodynamics and pharmacokinetics of phenobarbital and ethanol

in rats, 412
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608
Comparison of equilibrium dialysis, ultrafiltration, and gel permeation chromatography for the determination of free fractions of phenobarbital and phenytoin, 692
Drug distribution within human milk phases, 1071

Phenol red
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608

Phenoxyacetic acid
Liquid chromatographic analysis of ethacrynic acid and degradation products in pharmaceutical systems, 220

Phenprocoumon
Metabolic fate of phenprocoumon in humans, 1037

Phenylalanine
Enhancement of bioavailability of cinnarizine from its β-cyclodextrin complex on oral administration with DL-phenylalanine as a competing agent, 496

Phenylbutazone
Observations on the dissolution behavior of a tablet formulation: Effect of compression forces, 575

Phenylephrine
Simultaneous liquid chromatographic determination of glutaric acid, phenylephrine, and benzyl alcohol in a prototype nasal spray with application to di- and tricarboxylic acids, 312
Fluorometric determination of phenylephrine hydrochloride by liquid chromatography in human plasma, 562

Phenylpropanolamine
Determination of phenylpropanolamine hydrochloride and acetaminophen in pharmaceutical preparations by Raman spectroscopy, 443

Phenylpropenylaminobenzoate
Methods for in vitro percutaneous absorption studies IV: The flow-through diffusion cell, 64

Phenylpropionic acids
Conformational analysis of some α-phenylpropionic acids with anti-inflammatory activity, 47

Phenytoin
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205
Stable-isotope methodology for the bioavailability study of phenytoin during multiple-dosing regimens, 503
Comparison of equilibrium dialysis, ultrafiltration, and gel permeation chromatography for the determination of free fractions of phenobarbital and phenytoin, 692
Altered drug–serum protein binding in the genetically obese zucker rat, 837
Drug distribution within human milk phases, 1071

Phosphoramide mustard
Kinetics of phosphoramide mustard hydrolysis in aqueous solution, 1283

Photodecomposition
Two methods for monitoring the photodecomposition of sodium nitroprusside in aqueous and glucose solutions, 668

Phthalazinylhydrazonopropionic acid
Synthesis, formulation, and clinical pharmacological evaluation of hydralazine pyruvic acid hydrazone in two healthy volunteers, 193

Physical pharmacy
Physical pharmacy: Physical chemical principles in the pharmaceutical sciences, 3rd ed. (Martin, Swarbrick, and Cammarata, book reviews), 363

Physicochemical properties
Absorption potential: Estimating the fraction absorbed for orally administered compounds, 588

Physiology
Handbook of physiology: Section 2. The cardiovascular system. Peripheral circulation and organ blood flow, parts 1 and 2 (Shephard and Abbound, book reviews), 361

Pilocarpine
Effect of pH on charcoal adsorption of lidocaine, methadone, pilocarpine, and procaine, 476

Plaque formation
Anticariogenic activity of licorice and glycyrrhizine I: Inhibition of in vitro plaque formation by *Streptococcus mutans*, 79

Plaque microflora
Nonbactericidal approach to reduce colonization of plaque microflora on teeth in vitro and in vivo, 1228

Plasma lipoproteins
Plasma lipoproteins as drug carriers: Pharmacological activity and disposition of the complex of β-sitosteryl-β-D-glucopyranoside with plasma lipoproteins, 1259

Plastic deformation
Dispersion forces and plastic deformation in tablet bond, 768

Plastic intravenous delivery systems
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625

Point of zero charge
Point of zero charge of amorphous aluminum hydroxide as a function of adsorbed carbonate, 478

Poly(acrylonitrile) beads
Preparation of serum albumin microcapsules, 342

Polycarbophil
Bioadhesive polymers as platforms for oral controlled drug delivery III: Oral delivery of chlorothiazide using a bioadhesive polymer, 406

Polycyanine
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Polyethylene glycol
Phase separation induced in gelatin–base coacervation systems by addition of water-soluble nonionic polymers II: Effect of molecular weight, 469

Polyethylene infusion sets
Effect of infusion administration set on the delivery rate and plasma concentration of nitroglycerin in dogs, 774

Polyethylene oxide
Phase separation induced in gelatin–base coacervation systems by addition of water-soluble nonionic polymers II: Effect of molecular weight, 469

Polylactide
Microencapsulation and dissolution properties of a neuroleptic in a biodegradable polymer, poly(d,l-lactide), 21

Polymeric dyes
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Polymorphs
Characterization of polymorphism of gepirone hydrochloride, 1041

Polymorphism
Conformational polymorphism VI: The crystal and molecular structures of form II, form III, and form V of 4-Amino-*N*-2-pyridinylbenzenesulfonamide (sulfapyridine), 255

Polyoxyethylenenonylphenol ether
Cholesterol monohydrate dissolution rate studies in aqueous micellar solutions of α-(nonylphenyl)-ω-hydroxydeca(oxyethylene), *n*-alkylamines, and fatty acids, 1172

Polypeptide
Extraction ratio of cyclosporine in a liver transplant patient with organ rejection, 901

Polypeptides
Nasal delivery of polypeptides I: Nasal absorption of enkephalins in rats, 394

Polypeptide hormones
Effects of dose, pH, and osmolarity on nasal absorption of secretin in rats, 550

Polyporphyre
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Polyvinyl chloride–polyethylene matrix
pH- and flow-rate-independent release of drug from uncoated slow-release tablets, 991

Polyvinyl chloride infusion sets
Effect of infusion administration set on the delivery rate and plasma concentration of nitroglycerin in dogs, 774

Post-conception menses
Drug release testing of a prostaglandin containing controlled-release vaginal device: Development of a semiautomated method, 1086

Powder-filled semisolids
Relationship between powder surface characteristics and viscoelastic properties of powder-filled semisolids, 3

Powder flow
Studies of powder flow using a recording powder flowmeter and measurement of the dynamic angle of repose, 11

Preformulation studies
Performulation studies in a drug development program for tablet formulations, 16

Pregnancy
Kinetics of drug action in disease states XV: Effect of pregnancy of the convulsive activity of pentylenetetrazol in rats, 1233

Preservatives
Dynamics of disinfection of selected preservatives against *Escherichia coli*, 892
Adsorption of hypochlorite by aluminum hydroxide, 1019

Prilocaine
Phase distribution studies on an oil–water emulsion based on a eutectic mixture of lidocaine and prilocaine as the dispersed phase, 1192

Primidone
Effect of nonionic surfactants on aqueous primidone suspensions, 957

Problem solved
A problem solved (editorial), 1

Problem-solvers
Scientists as problem-solvers I (editorial), 501
Scientists as problem-solvers II (editorial), 597

Probucol
Triaxial compression of "cappable" formulations, 1239

Procaine
Effect of pH on charcoal adsorption of lidocaine, methadone, pilocarpine, and procaine, 476

Process validation
Pharmaceutical process validation (Loftus and Nash, book reviews), 110

Prodrugs
Solution kinetics of a water-soluble hydrocortisone prodrug: Hydrocortisone-21-lysinate, 87
Preparation and characterization of potential prodrugs of dyphylline, 184
Improved delivery through biological membranes XIX: Novel redox carriers for brain-specific chemical delivery systems, 241
Strategies in the design of solution-stable, water-soluble prodrugs I: A physical–organic approach to pro-moiety selection for 21-esters of corticosteroids, 365
Strategies in the design of solution-stable, water-soluble prodrugs II: Properties of micellar prodrugs of methylprednisolone, 375
Strategies in the design of solution-stable, water-soluble prodrugs III: Influence of the pro-moiety on the bioconversion of 21-esters of corticosteroids, 382
Hydrolysis and solvent-dependent 2′→5′ and 3′→5′ acyl migration in prodrugs of 9-β-D-arabinofuranosyladenine, 825
Direct evidence for brain-specific release of dopamine from a redox delivery system, 1033
Influence of 1-dodecylazacycloheptan-2-one (azone) on the topical therapy of cutaneous herpes simplex virus type 1 infection in hairless mice with 2′,3′-Di-*O*-acetyl-9-β-D-arabinofuranosyladenine and 5′-*O*-valeryl-9-β-D-arabinofuranosyladenine, 1157

Progestational activity
Liquid chromatographic procedure for the quantitative analysis of megestrol acetate in human plasma, 664

Propisomide
Protein binding of propisomide, 530

Propoxyphene
Liquid chromatographic determination of propoxyphene and norpropoxyphene in plasma and breast milk, 103

Propranolol
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205
Effect of the sialylation state of α_1-acid glycoprotein on propranolol binding, 473
Effect of vitamin K_3 on the first-pass elimination of propranolol in the rat, 578
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608
Altered drug–serum protein binding in the genetically obese zucker rat, 837
Attempts to use cyanide ion to trap imine intermediates in the microsomal *N*-dealkylation of propranolol: Formation of α-aminonitriles as artifacts when using ether for extraction, 968

Propylene carbonate
Determination of propylene carbonate in pharmaceutical formulations using liquid chromatography, 695

Propylene glycol
Solubilization by cosolvents I: Organic solutes in propylene glycol–water mixtures, 416
Pharmacokinetics of propylene glycol in humans during multiple dosing regimens, 876

Propyloctahydrobenzo(*f*)quinolines
cis- and *trans*-4-*n*-p ropyl-1,2,3,4,4a,5,6,10b-octahydrobenzo(*f*)quinolines, 672

Prostaglandin
Drug release testing of a prostaglandin containing controlled-release vaginal device: Development of a semiautomated method, 1086

Prostaglandin E_2
Pharmacodynamics and pharmacokinetics of the methyl ester of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 1245
Influence of antacids on the gastric antisecretory activity of the synthetic prostanoid [b.0](8*R*,11*R*,12*S*, 15*R*,5*Z*,13*E*)[vb.22]1 5-(acetyloxy)-11,16,16-trimethyl-9-oxoprosta-5,13-dien-1-oic acid in dogs, 1334

Proteins
Peptide and protein reviews, vol. 2 (Hearn, book reviews), 499

Protein binding
Effect of nonlinear protein binding on equilibration times for different initial conditions, 120

Protein synthesis
Antitumor agents 68: Effects of a series of helenalin derivatives on P–388 lymphocytic leukemia nucleic acid and protein synthesis, 250

Protein toxins
Bacterial protein toxins (Alouf, Fehrenbach, Freer, Jelijaszewicz, book reviews), 911

Pseudoephedrine
Steady-state bioavailability of dexbrompheniramine and pseudoephedrine from a repeat-action combination tablet, 25

Pulmonary
Chemistry and pharmacology of drugs, vol. 4: Pulmonary and antiallergic drugs (Devlin, book reviews), 1248

Pulmonary elimination
Pulmonary elimination of 5-fluorouracil in anesthetized rats, 1095

Purine derivatives
Electrochemistry of purine derivatives 1: Direct determination for the antiviral drug 9-[(1,3-dihydroxy-2-propoxy)methyl]guanine by anodic differential pulse voltammetry, 1078
Electrochemistry of purine derivatives 2: Correlation of anodic differential pulse peak potentials with Hammett substituent constants, 1082

Purine nucleosides
Purine acyclic nucleosides. 6-Dimethylamino-9-[(2-phenylalanylamido-1-substituted-ethoxy) methyl]purines as candidate antivirals, 1302

Puromycin analogues
Purine acyclic nucleosides. 6-Dimethylamino-9-[(2-phenylalanylamido-1-substituted-ethoxy) methyl]purines as candidate antivirals, 1302

Pyrazole derivatives
Synthesis and anti-inflammatory and analgesic activities of 3-methyl-*N*-phenyl-1*H*-pyrazol-5-ylcarboxamides, 1013

Pyridinylmethylbenzofurancarboxylic acid
Liquid chromatographic–ultraviolet methods for furegrelate in serum and urine: Preliminary pharmacokinetic evaluation in the dog, 455

Pyrimidinecarboxylic acid derivatives
Hypolipidemic activity of 6-amino-2-mercapto-5-methylpyrimidine-4-carboxylic acid and related derivatives in rodents, 759

Pyrimidinylpiperizinylbutylpiperidinedione hydrochloride
Characterization of polymorphism of gepirone hydrochloride, 1041

Quality control
Some properties of the USP content-uniformity test as related to control charts and validation of solid dosage forms, 572

Quantum mechanical calculations
Conformational analysis of some α-phenylpropionic acids with anti-inflammatory activity, 47

Quinoxaline di-*N*-oxides
Charge transfer in the mechanism of drug action involving quinoxaline di-*N*-oxides, 492

Radioiodinated serum albumin
Determination of gallium concentration in "blood-free" tissues using a radiolabeled blood marker, 1007

Rafoxanide
Incidence of experimental fascioliasis on hepatic disposition of [^{3}H]tetracycline and [^{14}C]rafoxanide in rats, 1004

Raman spectroscopy
Determination of phenylpropanolamine hydrochloride and acetaminophen in pharmaceutical preparations by Raman spectroscopy, 443

Rat liver cytosol
Inhibition of 5β-dihydrocortisone reduction in rat liver cytosol: A rapid spectrophotometric screen for nonsteroidal anti-inflammatory drug potency, 651

Rectal absorption
Enhanced rectal absorption of sodium ampicillin by *N*-acyl derivatives of collagen peptide in rabbits and rats, 1058

Redox chemical delivery system
Direct evidence for brain-specific release of dopamine from a redox delivery system, 1033

Reducing sugars
Kinetic studies of the interaction between isoniazid and reducing sugars, 427

Reference marker
Polymeric dyes: Useful nonabsorbable reference markers for intestinal perfusion studies in animals, 328

Renal clearance
Theoretical limits of changes in plasma protein binding on renal drug clearance, 108

Residual analysis
Residuals in multiple regression analysis, 1053

Reverse transcriptase of RNA tumor viruses
Enzyme inhibition VIII: Mode of inhibition of reverse transcriptase activity by analogues, isomers, and related alkaloids of coralyne, 889

Rheological technique
Characterization of the shear sensitivity property of petrolatum, 290

RNA synthesis
Antineoplastic activity of a series of boron analogues of α-amino acids, 755

RNA tumor viruses
Enzyme inhibition VIII: Mode of inhibition of reverse transcriptase activity by analogues, isomers, and related alkaloids of coralyne, 889

Rotational isomerism
Kinetics and mechanisms of thioamide rotational isomerism: *N*-thionaphthoyl-*N*-methyl glycine derivative, 273

Rubber stoppers
Leaching of zinc compound from rubber stoppers into the contents of automatic atropine injectors, 788

Salicylamide
Pharmacodynamics of the hypnotic effect of salicylamide in rats, 599

Salicylates
Aspirin and the salicylates (Rainsford, book reviews), 1138

Salicylhydroxamic acid
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Salicylic acid
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical acids and their sodium salts II: Salicylic acid, theophylline, and benzoic acid, 148
In vivo dissolution measurement with indium-111 summation peak ratios, 1131

Salicylic acid derivatives
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Saliva-treated hydroxyapatite beads
Nonbactericidal approach to reduce colonization of plaque microflora on teeth in vitro and in vivo, 1228

Scintigraphy
Radiolabeling of intact tablets by neutron activation for in vivo scintigraphic studies, 590

Secretin
Effects of dose, pH, and osmolarity on nasal absorption of secretin in rats, 550

Segmental difference
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Selectivity
Selectivity—A goal for synthetic efficiency (Bartmann and Trost, book reviews), 498

Semisolids
Relationship between powder surface characteristics and viscoelastic properties of powder-filled semisolids, 3

Serum albumin
Preparation of serum albumin microcapsules, 342
Binding of dapsone and its analogues to human serum albumin, 690
Comparison of equilibrium dialysis, ultrafiltration, and gel permeation chromatography for the determination of free fractions of phenobarbital and phenytoin, 692
Determination of gallium concentration in "blood-free" tissues using a radiolabeled blood marker, 1007

Shear sensitivity
Characterization of the shear sensitivity property of petrolatum, 290

Sialylation
Effect of the sialylation state of α_1-acid glycoprotein on propranolol binding, 473

Simplex method
Simplex optimization of the blue tetrazolium assay procedure for α-ketol steroids, 655

Sinusoidal perfusion model
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205

Sitosterylglucopyranoside
Plasma lipoproteins as drug carriers: Pharmacological activity and disposition of the complex of β-sitosteryl-β-D-glucopyranoside with plasma lipoproteins, 1259

Skin penetration
Finite dose pharmacokinetics of skin penetration, 1100

Sodium bicarbonate
Interactions in the solid state I: Interactions of sodium bicarbonate and tartaric acid under compressed conditions, 1293

Sodium dodecyl sulfate
Acid-catalyzed hydrolysis of sodium dodecyl sulfate, 1047
Micellar effects on the basic hydrolysis of indomethacin and related compounds, 1184

Sodium nitroprusside
Two methods for monitoring the photodecomposition of sodium nitroprusside in aqueous and glucose solutions, 668

Sodium salicylate
pH- and flow-rate-independent release of drug from uncoated slow-release tablets, 991

Sodium starch glycolate
Effect of molecular structure variation on the disintegrant action of sodium starch glycolate, 647

Solubility
Prediction of solubility in nonideal multicomponent systems using the UNIFAC group contribution model, 634
Dependence of solute solubility parameters on solvent polarity, 638

Solubility behavior
Predictive relationships in the water solubility of salts of a nonsteroidal anti-inflammatory drug, 815

Solubility properties
Solubility properties in polymers and biological media 5: An analysis of the physicochemical properties which influence octanol–water partition coefficients of aliphatic and aromatic solutes, 807

Solubilization
Solubilization by cosolvents I: Organic solutes in propylene glycol–water mixtures, 416

Sorption
Comparison of models describing the sorption of nitroglycerin and diazepam by plastic infusion systems: Diffusion and compartment models, 625

Sorption kinetics
Moisture sorption kinetics for water-soluble substances IV: Studies with mixtures of solids, 124

Spherical crystallization
Preparations of agglomerated crystals of polymorphic mixtures and a new complex of indomethacin–epirizole by the spherical crystallization technique, 1152

Sphingolipid analogue
Phase behavior of carbamyloxyphosphatidylcholine, a sphingolipid analogue, 1255

Spiroindanpyrrolidine derivatives
Synthesis and pharmacological evaluation of aromatic dihydroxylated spiro[indan-1,3′-pyrrolidine] and spiro[indan-2,2′-pyrrolidine] derivatives, 553

Spirosuccinimides
Spirosuccinimides as potential anticonvulsants, 785

Spring relaxation
Characterization of the shear sensitivity property of petrolatum, 290

Stability
A new approach for dealing with the stability of drugs in biological fluids, 972

Stable isotope-labeled aspirin
Preparation and analysis of deuterium-labeled aspirin: Application to pharmacokinetic studies, 188

Stable-isotope methodology
Stable-isotope methodology for the bioavailability study of phenytoin during multiple-dosing regimens, 503

Statistical moment method
Evaluation of drug absorption by nonlinear regression, statistical moments, and Loo–Riegelman methods, 359
Assessment of drug absorption after oral administration, 388
The mean residence time of drugs in the systemic circulation, 791
Steady-state volume of distribution after multiple doses, 1134
Comparison of statistical moment parameters to C_{max} and t_{max} for detecting differences in in vivo dissolution rates, 1340

Stereochemistry
Stereochemistry and biological activity of drugs (Ariens, book reviews), 233

Stereoelectronic effects
Stereoelectronic effects in organic chemistry (Deslongchamps, book reviews), 499

Stereoselective inversion
Stereoselective inversion of (*R*)-fenoprofen to (*S*-fenoprofen in humans, 82

Steric difference
Minimum steric difference. The MTD method of QSAR studies (Simon, Chiriac, Holban, Ciubotaru, and Mihalas, book reviews), 1247

Sterility test systems
Sterility test systems for product recovery, 29

Steroids
Simplex optimization of the blue tetrazolium assay procedure for α-ketol steroids, 655
Terpenoids and steroids, vol. 12 (Hanson, book reviews), 801
Percutaneous absorption of steroids: Effect of repeated application, 1337

Streptococcus mutans
Anticariogenic activity of licorice and glycyrrhizine I: Inhibition of in vitro plaque formation by *Streptococcus mutans*, 79

STRITERFIT
STRITERFIT, a least-squares pharmacokinetic curve-fitting package using a programmable calculator, 545

Sucrose
Lymphatic transport of liposome-encapsulated agents: Effects of liposome size following intraperitoneal administration, 915

Sulfamethazine
Physicochemical and structural study of sulfamethazine, 422

Sulfanilamide
Surfactant effect on the dissolution of sulfanilamide granules, 269
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Sulfapyridine
Conformational polymorphism VI: The crystal and molecular structures of form II, form III, and form V of 4-Amino-*N*-2-pyridinylbenzenesulfonamide (sulfapyridine), 255

Sulfation inhibitors
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Sulfisoxazole
Segmental difference and effect of glucose on drug exsorption across the small intestine of rats, 316

Sulfonamide
Quantitative thin-layer and high-performance liquid chromatographic determination of lorapride in biological fluids and a pharmacokinetic study in humans, 1215

Sulfonamides
Extended Hildebrand solubility approach: Sulfonamides in binary and ternary solvents, 277

Sulfonylbis(acetanilide)
Binding of dapsone and its analogues to human serum albumin, 690

Sulfonylbis(aniline)
Binding of dapsone and its analogues to human serum albumin, 690

Sulfotransferases
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Summation peak ratio
In vivo dissolution measurement with indium-111 summation peak ratios, 1131

Sunscreen efficacy
Literature citations for "effect of film irregularities on sunscreen efficacy" (open forum), 232

Surfactants
Surfactant effect on the dissolution of sulfanilamide granules, 269
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of cholesterol solubilized in a charged micellar system, 618
Effect of nonionic surfactants on aqueous primidone suspensions, 957
Micellar effects on the basic hydrolysis of indomethacin and related compounds, 1184
Phase distribution studies on an oil–water emulsion based on a eutectic mixture of lidocaine and prilocaine as the dispersed phase, 1192

Surfactant systems
Surfactant systems: Their chemistry, pharmacy and biology (Attwood and Florence, book reviews), 1140

Sustained-release system
Microencapsulation and dissolution properties of a neuroleptic in a biodegradable polymer, poly(d,l-lactide), 21
Novel method for the preparation of controlled-release theophylline granules coated with a polyelectrolyte complex of sodium polyphosphate–chitosan, 264
Bioadhesive polymers as platforms for oral controlled drug delivery III: Oral delivery of chlorothiazide using a bioadhesive polymer, 406
Liposome–collagen gel matrix: A novel sustained drug delivery system, 922

Syneresis
Characterization of the shear sensitivity property of petrolatum, 290

Tablet bond
Dispersion forces and plastic deformation in tablet bond, 768

Tablet bond formation
Dispersion forces and plastic deformation in tablet bond, 768

Tack behavior
Tack behavior of coating solutions III, 746

Taiprofenic acid
Pharmacokinetics of taiprofenic acid in healthy and arthritic subjects, 953

Tartaric acid
Interactions in the solid state I: Interactions of sodium bicarbonate and tartaric acid under compressed conditions, 1293

Taurocholate–lecithin system
Examination of the sephadex G_{10} beads uptake method for determination of bile salt monomer concentration in taurocholate–lecithin solutions, 880

Terpenoids
Terpenoids and steroids, vol. 12 (Hanson, book reviews), 801

Testosterone
Percutaneous absorption of steroids: Effect of repeated application, 1337

Tetracycline
Incidence of experimental fascioliasis on hepatic disposition of [^{3}H]tetracycline and [^{14}C]rafoxanide in rats, 1004

Tetrahydrocannabinol
Disposition and bioavailability of various formulations of tetrahydrocannabinol in the Rhesus monkey, 171

Theophylline
Effect of diffusion layer pH and solubility on the dissolution rate of pharmaceutical acids and their sodium salts II: Salicylic acid, theophylline, and benzoic acid, 148
In vitro–in vivo correlation and dissolution studies with oral theophylline dosage forms, 161
Novel method for the preparation of controlled-release theophylline granules coated with a polyelectrolyte complex of sodium polyphosphate–chitosan, 264
Estimation of theophylline clearance during intravenous aminophylline infusions, 508
Preparation and evaluation of microencapsulated and coated ion-exchange resin beads containing theophylline, 643
Lack of influence of co-trimoxazole on theophylline pharmacokinetics, 1103

Theoretical drug design
Theoretical drug design methods, vol. 7 (Franke, book reviews), 592

Therapeutic drug monitoring
Therapeutic drug monitoring and toxicology by liquid chromatography (Wong, book reviews), 1142

Thermal microscopy
Characterization of polymorphism of gepirone hydrochloride, 1041

Thiazide diuretic
Effects of magnesium oxide on trichlormethiazide bioavailability, 862

Thioamides
Kinetics and mechanisms of thioamide rotational isomerism: *N*-thionaphthoyl-*N*-methyl glycine derivative, 273

Thiocarbamates
Computer-assisted structure–anticancer activity correlations of carbamates and thiocarbamates, 831

Thiourea derivatives
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Thromboxane synthetase inhibitor
Liquid chromatographic–ultraviolet methods for furegrelate in serum and urine: Preliminary pharmacokinetic evaluation in the dog, 455

Thymopentin
Detection and quantitation of low levels of protected and unprotected (*R*)-amino acids in the synthesis of thymopentin, an immunoregulatory peptide, 489

Titrimetric analysis
Automated flow-injection pseudotitration of boric acid, 886

Tolbutamide
Effect of food and tablet age on relative bioavailability and pharmacodynamics of two tolbutamide products, 735

Topical antihypertensive agent
Capillary gas chromatographic–mass spectrometric analysis of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 76

Topical delivery
Effect of fatty acids and alcohols on the penetration of acyclovir across human skin in vitro, 688

Toxicokinetics
Experimental and clinical toxicokinetics (Yacobi and Barry, book reviews), 909

Toxicology
Advances in analytical toxicology, volume 1 (Baselt, book reviews), 362
Annual review of pharmacology and toxicology, vol. 24 (George, Okum, and Cho, book reviews), 805
Clinical toxicology of commercial products, 5th ed. (Gosselin, Smith, and Hodge, book reviews), 1139
Therapeutic drug monitoring and toxicology by liquid chromatography (Wong, book reviews), 1142

Transdermal drug delivery
Pharmacokinetics of transdermal drug delivery, 718
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771
Pharmacokinetic interpretation of the plasma levels of clonidine following transdermal delivery, 1016
Pharmacodynamics and pharmacokinetics of the methyl ester of 15-deoxy-16-hydroxy-16-vinylprostaglandin E_2, 1245

Transition metals
New pathways for organic synthesis: Practical applications of transition metals (Colquhoun, Holton, Thompson, and Twigg, book reviews), 362

Transport resistance
Direct membrane method for the study of interface-controlled transport of cholesterol in aqueous media, 612
Quantitative analysis of the interfacial barrier to membrane transport of

cholesterol solubilized in a charged micellar system, 618

Trapezoidal rule
Wagner's exact Loo–Riegelman equation: The need for a criterion to choose between the linear and logarithmic trapezoidal rule, 793

Triamcinolone
Impact of liposomal drug carriers on drug pharmacokinetics, 897

Tricalcium phosphate
Compressibility of anhydrous tricalcium phosphate, 466

Trichlormethiazide
Effects of magnesium oxide on trichlormethiazide bioavailability, 862

Triethanolamine
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

Triethanolammonium oleate
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

Triethylammonium methylphenylethyldithiocarbamate
Cardiovascular effects of two potential β-hydroxylase inhibitors, 681

Trifluoperazine metabolite
Radioimmunoassay for the 7-hydroxy metabolite of trifluoperazine and its application to a kinetic study in human volunteers, 1196

Trifluoromethylmethoxythionaphthoylmethylglycine
Kinetics and mechanisms of thioamide rotational isomerism: *N*-thionaphthoyl-*N*-methyl glycine derivative, 273

Trimethadione
Dose-independent pharmacokinetics of trimethadione and its metabolite in rats, 340

Tropanol tropate
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans I: Pharmacokinetics, 703
Integrated pharmacokinetics and pharmacodynamics of atropine in healthy humans II: Pharmacodynamics, 711

Two-compartment system
Effect of nonlinear protein binding on equilibration times for different initial conditions, 120

Tylosin
Interspecies correlation of the pharmacokinetics of erythrocmycin, oleandomycin, and tylosin, 943

Tyrosine
Mechanism of nasal absorption of drugs I: Physicochemical parameters influencing the rate of in situ nasal absorption of drugs in rats, 608
Mechanism of nasal absorption of drugs II: Absorption of L-tyrosine and the effect of structural modification on its absorption, 1298

Ulcerogenic potential
Comments on "the ulcerogenic potential of copper aspirinate seems to be more imaginary than real" (open forum), 700

UNIFAC method
Prediction of solubility in nonideal multicomponent systems using the UNIFAC group contribution model, 634

United States pharmacopeia
The United States pharmacopeia XXI/national formulary XVI (book reviews), 1030

USAN
USAN and the USP dictionary of drug names, 1985 ed. (Griffiths, book reviews), 500

USP
USAN and the USP dictionary of drug names, 1985 ed. (Griffiths, book reviews), 500
The United States pharmacopeia XXI/national formulary XVI (book reviews), 1030

USP content-uniformity test
Some properties of the USP content-uniformity test as related to control charts and validation of solid dosage forms, 572

Validation of solid dosage forms
Some properties of the USP content-uniformity test as related to control charts and validation of solid dosage forms, 572

Vanillin oxime
Inhibition of mucopolysaccharide sulfation using rabbit liver sulfotransferases, 355

Variable rotating cylinder
Studies of powder flow using a recording powder flowmeter and measurement of the dynamic angle of repose, 11

Vasodilator
Bioavailability of dyphylline and dyphylline–guaifenesin tablets in humans, 335

Venous equilibrium model
Variation in hepatic extraction ratio with unbound drug fraction: Discrimination between models of hepatic drug elimination, 205

Veralipride
Primary dose-dependent pharmacokinetic study of veralipride, 94

Vidarabine
Hydrolysis and solvent-dependent 2′→5′ and 3′→5′ acyl migration in prodrugs of 9-β-D-arabinofuranosyladenine, 825

Viscoelastic properties
Relationship between powder surface characteristics and viscoelastic properties of powder-filled semisolids, 3

Vitamin K_3
Effect of vitamin K_3 on the first-pass elimination of propranolol in the rat, 578
Handbook of vitamins: Nutritional, biochemical, and clinical aspects (Machlin, book reviews), 1024

Warfarin
Drug distribution within human milk phases, 1071

Water deprivation
Influence of short-term water deprivation on antipyrine disposition, 338

Water-soluble deliquescent substances
Moisture sorption kinetics for water-soluble substances IV: Studies with mixtures of solids, 124
Crystallization of excipients in tablets, 128

Xanthine solubilities
Prediction of xanthine solubilities using statistical techniques, 132

X-ray crystallography
Molecular structure of two conformationally restrained fentanyl analogues: Cis- and trans-isomers of *N*-3-methyl-1-[2-(1,2,3,4-tetrahydro)naphthyl]-4-piperidinyl-*N*-phenylpropanamide, 1147

X-ray diffraction
Physicochemical and structural study of sulfamethazine, 422
The influence of solvent on nonaqueous lyotropic liquid crystalline phase formed by triethanolammonium oleate, 771

X-ray photoelectron spectroscopy
Characterization of drug loading in crospovidone by x-ray photoelectron spectroscopy, 963

Zero-order release
Multiple-hole approach to zero-order release, 926
Drug release testing of a prostaglandin containing controlled-release vaginal device: Development of a semiautomated method, 1086

Zinc compounds
Leaching of zinc compound from rubber stoppers into the contents of automatic atropine injectors, 788

Zinc suspensions
High molecular weight derivative of salmon calcitonin with prolonged hypocalcemic activity, 345

Zucker rat
Altered drug–serum protein binding in the genetically obese zucker rat, 837
